

THE DAILY WORKER EMPLOYMENT PROGRAM

AS WE SEE IT

By T. J. O'FLAHERTY

HENRY FORD, Thomas Edison and Harvey Firestone, three of the biggest industrial barons in the United States, stopped at Plymouth, Vt., to pay their respects to President Coolidge. Henry and Calvin are great friends ever since the latter promised to let the former have Muscle Shoals for a "river." The deal did not go thru but that was not Coolidge's fault. Henry was duly grateful and withdrew his candidacy for the presidency and came out for Calvin.

To show his regard for Mr. Ford and also perhaps to induce the silver king to throw some cash into the Republican treasury, Coolidge presented the Detroit manufacturer with a family heirloom to be placed in the Wayside Inn, a Massachusetts tavern made famous by Longfellow's songs and more recently by Ford. It was a top bucket that had been used in the Coolidge game bush for 25 years. "I never have received anything since I was married that I appreciated so much," Ford replied. Coolidge has not yet been presented with a gavel by a New England labor faker, which is surprising, in view of the fact that he claims credit for breaking the 1922-23 coal miners' strike. Labor fakers usually appreciate such services.

WHILE Coolidge was governor of Massachusetts he was never a popular figure. In fact the police strike saved him from the political dump heap. Ever since that incident a man has been carefully cultivated until this puny, waseled scoundrel Puritan has become the Little Father of millions of empty-headed Americans who take their thinking from the best of the capitalist press. Coolidge is a very useful man to the capitalists. He sits on all six cylinders for them all the time.

THE Gaelic American, organ of the secret Irish political machine known as the Clann-Gael, is out for LaFollette, principally because of his opposition to the Ku Klux Klan. The Clann-Gael, was organized ostensibly to help free Ireland from British rule, but it has never been anything else than a capitalist political machine to place aspiring Irish politicians in office. The Gaelic American supported Al Smith for the Democratic nomination for president. Had Smith succeeded, that paper would not be singing the praises of the Democratic Party. What a crazy-quilt conglomeration!

THE French foreign office announced that no further evacuations of German territory will be ordered by the French until after the chamber ratifies the London agreement. The capitalists know how to play the game in order to enable the German government to the London conference to show something tangible in return for signing a treaty turning the country over to the reds and co-opts. At the instigation of the British, evacuated a few small and unimportant towns in the Ruhr. Then to mollify the miners, they evacuated on his arrival in France issued the above statement.

BRITISH troops killed three hundred Wahabi tribesmen in Trans-Jordan. The rest were driven from towns they had occupied. The British fleet is hurrying to Egypt to pump British democracy into the Egyptian Sudanese. Ramsey MacDonald is a fine pacifist. He is also a Christian and attends religious services regularly. Killing is supposed to be against the tenets of pacifism and also against the law of the Christian God. But capitalism like Jehovah will have no other gods but the money bag. It simply means that the big capitalists should stop fighting each other. Killing natives is perfectly all right, good sport and not so dangerous.

NAIVE optimists were of the opinion when Ramsey MacDonald assumed office that a new chapter would be opened in the history of the British Empire. Perhaps a new chapter has been opened with the name of Ramsey MacDonald at the top, but the reading matter is of the same old pattern. MacDonald is running the empire for those who own it just the same as his predecessors have done. MacDonald does not believe in the overthrow of the capitalist system. He is as much of a socialist as Morris Hillquit or Victor Berger. The New York Freeman's Liberty Bell is supposed to be in its life-size of March 5, this year, commemorating on the advent of (Continued on page 2)

UNEMPLOYMENT AND KLAN ARE ISSUES IN ILL.

Daily Worker Series Is Read by Miners

By KARL REEVE
(Staff Writer, Daily Worker)

SPRINGFIELD, Ill., Aug. 20.—I met John Watt, secretary of the Springfield sub-district of the United Mine Workers' union in the sub-district office, 221½ South Fourth Street.

He showed me clippings from the local papers announcing that the "Red" presidential candidate, William Z. Foster, will speak in Springfield September 1 as a counteraction to the La Follette, labor day speaking of the trade union officials.

James Marlot, who was expelled as district auditor of the Kansas miners because he is a Howat man, came in and compared Farrington's Illinois activities with Howat's Kansas activities. Then John Watt, of Thayer came in and arranged to drive me over to Thayer.

Reeve is Welcomed.

We drove thru the pretty Sangamon county farming and mining country, sixteen miles south to Thayer, on the road to St. Louis. Watkins introduced me to the miners as "The DAILY WORKER reporter who was put out of the Fourth convention by Frank Farrington." This episode is well known to the Illinois miners. It was the best introduction I could possibly receive. I have found one miner (Continued on page 5)

MILLIONS FOR MOBILIZATION DAY

Drawn by Callaghan, Federated Press Staff Cartoonist.

GARY TO PERSHING: "We'll have Cal give 'em a patriotic thrill Sept. 12 and they'll forget where we come in."

Two Millions Out of Work

LAFOLLETTE'S COMMONWEALTH IS ANTI-LABOR

Legislature and Courts Work Against Workers

By JAY LOVESTONE.
(Sixth Article.)

In LaFollette's "Model Commonwealth," Wisconsin, the state legislature, the senate and the courts are in the hands of the employing class. This ownership of the government by the bosses of Wisconsin is essentially the same as it is in the other forty-seven states of the union and in the national capital.

The state assembly and senate have voted down bills sponsored by the organized workers. The courts have declared remedial legislation unconstitutional. The workmen have suffered greatly at the hands of the courts thru long and costly litigation.

Time and again the Wisconsin government, elected thru the aid and support of Senator LaFollette, have used their powers of appointment to public office to appoint the workers.

Who Owns Wisconsin?
As a survey of who is who in Congress recently made by us, we found that the employing class was (Continued on page 6)

T. U. E. L. DEMANDS FIGHT AGAINST UNEMPLOYMENT AND MISLEADERS WHO PLAY WITH CORRUPT POLITICIANS

The Trade Union Educational League has issued the following statement on the growing unemployment crisis:

Unemployment is growing worse and already grips some two millions of workers. Especially in the mining fields of Illinois it has been intense and bitter, and continues to grow worse each day. The employers are deliberately intensifying it, hoping thereby to cripple the Union.

The "labor leaders" at the head of the State Federation of Labor and District 12, United Mine Workers of America, spend their time playing politics with Len Small, the corrupt republican, instead of organizing the workers and helping fight for relief and improvement of conditions.

The state government, feeling secure in their possession of the alliance of labor officials, calmly ignores the suffering of the workers and makes not even a gesture of sympathy. For the unemployed workers who are starving, and for the employed workers whose conditions are threatened with destruction by the growing mass of unemployed ready to take their jobs, there is no recourse left except to organize their own battle, and lead it against employers, corrupt government officials and misleaders of the union.

Direct grants from the state government for relief, to be administered by the workers, with safe guards of rank-and-file administration of funds.

Demand the six-hour day and the five-day week, without reduction in earnings.

The Trade Union Educational League.

GARY DELEGATES WILL BRING MILITANT PLAN TO STATE LABOR MEET

(Special to the Daily Worker.)

GARY, Ind., Aug. 20.—At the regular meeting of the Central Labor Union, the delegates to the Indiana Federation of Labor convention were instructed to introduce and fight for the adoption of resolutions calling for amalgamation along industrial lines for the organization of the unorganized, and for the recognition of Soviet Russia. A motion carried also instructed the officials of the C. U. to draw up a resolution in opposition to the mobilization project of Sept. 12.

to demand relief and to organize relief actions of the miners themselves, thru the union machinery, with safe guards of rank-and-file administration of funds.

Demand the six-hour day and the five-day week, without reduction in earnings.

The Trade Union Educational League.

HUGHES PEEVED AT SOVIETS FOR GETTING TREATY WITH CHINESE; U. S. DOLLAR DIPLOMACY IS HIT

By LAURENCE TODD.

WASHINGTON, August 20.—No wonder Secretary Hughes is calling Minister Schurman home from Peking. The biggest disaster that American dollar diplomacy has suffered in many years has come to light in Schurman's territory, and Charley wants his minister to explain.

There has reached America the text, given out in China, of the terms of special agreements reached between the Chinese foreign minister, Dr. Wellington Koo, and the ambassador of the Union of Socialist Soviet Republics, Leo Karakhan, in pursuance of the Russo-Chinese treaty of May 21.

These agreements cover the control of the Chinese Eastern Railway, the refund of the Russian share of the Boxer indemnity, and the fate of the Russian White Guard troops who were taken into the Chinese army and police force after the return of Soviet control to Vladivostok. Diplomatic Washington discovers that China has received back from Russia many val-

ABOLITION OF CAPITALISM IS AIM OF WORKERS PARTY, SAYS WM. Z. FOSTER TO DAILY WORKER

William Z. Foster, Communist candidate for president of the United States, who left last night on his western tour, was finally backed into a corner, just before his departure, by the reporter of the DAILY WORKER, and an interview demanded. Reluctantly turning from his desk, at which he had been busily answering a large stack of letters, Foster submitted.

"What purpose have the Communists in participating in the election campaign?" was the first question. "First and foremost, to rally the workers against all parties that stand for the capitalist system," said Foster. "So long as the wage earners can believe that any hope exists for them in any party except a strictly proletarian organization, just so long the class struggle will be abortive, the employers will build up more power, and the conditions of the workers worsened in every way. We use the election campaign to educate and organize the workers, and to break them away from capitalist ideas in all their forms."

The ultimate goal of the Workers (Communist) Party? "The complete abolition of the capitalist system, destruction of the rule of the bourgeoisie, establish the rule of the workers in alliance with the working farmers expressed in the dictatorship of the proletariat, organized into workers' councils (soviets), the reorganization of social and economic life on a communal basis."

Main issues? "What are the main issues that confront the workers and farmers in this campaign?"

"The one big issue before the workers and farmers is this: Shall the capitalist class continue to use the machinery of government to suppress and exploit the workers and farmers, or shall the workers and farmers, thru their class organizations, take this power out of the hands of their class enemies?"

"How does the dictatorship of the proletariat differ from the Fascist dictatorship in Italy?"

Two Dictatorships. "The proletarian dictatorship rests upon the broad masses of the workers and fights for their interests: the Fascist dictatorship is against the broad masses, is exercised by a small class—the interests of the smallest class—the capitalists. They are opposites. They are deadly enemies and represent fundamentally antagonistic classes."

"What is the intention of the Dawes plan, and what effect will its operation have upon the German and upon the American workers?"

"The intention of the Dawes plan is to definitely clinch Morgan's present control of the capitalist world. Its operation will make the American workers slaves of the international bankers, while the products of their 10 and 12-hour day will be used to enable the German capitalists to British, French, and American workers. The intention is to convert the German working class into international slaves, and to destroy the labor movement of the world."

International Leadership. "Do the Workers Party accept the leadership of the Communist International?"

"Yes. Every effective group in society has its own international center, for all social questions are international and can only be solved by international organization. This is especially true of the problem of the workers. The capitalists have their International of Nations, the International of the bourgeoisie, their Second International of socialists and their American (Continued on page 2)

BOSSSES GATHER TO PERFECT PLOT AGAINST MINERS

Herrin Scene of Meeting of "Open Shoppers"

(Special to the Daily Worker.)

HERRIN, Ill., Aug. 20.—The terrific crisis that grips southern Illinois, with more than 200 mines shut down completely, and almost all working one or two days a week only, throwing 40,000 to 50,000 miners out of work, has forced the employers to call a conference to consider the situation.

The coal companies and the large consumers of coal in the state have representatives meeting here today to discuss the problems arising out of the situation.

It is expected that the purpose of the conference will be disclosed in the shape of a demand for a statewide "open shop" drive against the miners, to reduce them to the status of the exploited and suppressed non-union miners of the south.

Watch Case Workers Strike. SAG HARBOR, N. Y., Aug. 20.—Six hundred employees of Joseph Fahys & Co., manufacturers of watch cases, went out on strike today for maintenance of the old scale of wages, which had been cut from 8 to 10 per cent. All the men are skilled.

LaSalle Is Scab University. Textbooks and other printed matter of the LaSalle Extension University in Chicago are done almost entirely by non-union shops.

BOSS' JUDGE HANDS OUT SENTENCES TO STRIKING WORKERS

(Special to the Daily Worker.)

BELLEVILLE, Ill., Aug. 20.—William Christopher, business agent of the Trades and Labor Assembly, Belleville, was sentenced to 90 days in jail and fined \$200, and 14 other strikers and labor leaders were fined from \$50 to \$200 by Judge George Crow today for defying his anti-striking injunction against the striking members of the Amalgamated Clothing Workers of America here.

The Trades and Labor Assembly met here last night and organized for the purpose of fighting the manufacturers' association, which is attempting to force the open shop of Belleville.

SHERMAN SPY AGENCY BACKS DOWN IN CHALLENGE ON ITS ESPIONAGE FOR EMPLOYERS

(By The Federated Press)

BABSON PARK, Mass., August 20.—Business men lolling in the \$10 a day Babson clubhouse spent several hours discussing the expected thrill developed by the exposure of the Sherman Service, Inc., as a full fledged industrial espionage concern of the familiar gunnand-dog-provocateur type.

The exposure which was named home when the trapped Sherman manager defaulted on his comeback, came at the 11th annual business conference conducted by Roger Babson and the Government Statistical organization at Babson Park near Boston.

Dick Spreads the Gravy. S. P. Fannon, director of public service of the Sherman Service, had delivered an address full of high moral tone and quotations from scriptures, but referring only vaguely to the specific "crime" performed by Sherman.

When Fannon finished, Henry Denison, owner of the big Denison pa-

ican Federation of Labor has successfully floated bonds for \$200,000 among the workers to build a large labor

VICTORY SEEN IN ENDING OF BOSTON STRIKE

Ninety Percent of Men
Already Working

(By The Federated Press)
BOSTON, Aug. 20.—Agreements have been signed between the settlement committee of the Amalgamated Clothing Workers of America and the men's garment manufacturers of Boston resulting in the return of 90% of the 4,000 workers who struck August 10—account of failure of some smaller manufacturers to abide by the 1921 agreement.

Union officials charged that these employers were encouraging the sweatshop by sending work into private homes. Fifty shops were affected by the walkout.

Strike Ends Soon.
The end of the strike is in sight, according to Jack Rime, manager, local joint board. The strike has been marked by rough work on the part of Boston police who put into effect a new ordinance designed for strike law legalizing the arrest of persons obstructing "free foot passage" on the sidewalks. Several small riots occurred as police interfered with pickets and crowds of orderly sympathizers. Twenty-six men and two women strikers were arrested by the police and one was stabbed.

Blame Cops for Violence.
Union officials place the blame for violence on the shoulders of the police who have been interfering with ever since the beginning of the strike. The prisoners were released on bail furnished by the organization.

SPY AGENCY BACKS DOWN

(Continued from page 1)

per plant, past Boston, asked the speaker if the service did not employ spies and was it not, in spite of the attractive colors in which it had been painted, carried on by putting operators under cover in clients' plants.

Fannon Denies Spies Charge.
Fannon replied that of course they didn't employ spies, but that they were bringing capital and labor together by the innocent Sherman harmonizations they would admit it, but not in the popularly accepted sense of the word. For Sherman operatives were conciliators and carriers of light and truth.

Dunn Challenges Fannon.
Finally, when Fannon had successfully parried several of the business men, Robert W. Dunn charged him with deliberately misleading the audience. Dunn, who has written a book on industrial espionage in collaboration with Sidney Howard, charged the Sherman Service specifically with strikebreaking, disruption of labor unions, use of gunmen and of the roughneck type of operator rather than the trained angel of conciliation described in the Sherman advertising booklet.

He also charged them with being the same sort of agency as the Corporations Auxiliary, the Bureau of Industrial Relations in which Jim Cronin, the Philadelphia "molders" union official, was recently exposed, and a score of other union-breaking, strike-breaking agencies wearing similarly innocent titles.

Reads Sherman Record.
Dunn read from the report of the International World Report on the steel strike, showing the instructions by the Sherman to its operatives to stir up feeling between nationalities and to resort to acts of violence, and recalled how the Sherman had been indicted in Chicago for these crimes. He pointed out that their work was

well known in the Lawrence strike of 1919, in the Kirschbaum strike in Philadelphia against the Amalgamated Clothing Workers and in dozens of other labor conflicts.

Fannon tried to brush the matter lightly aside by saying he had heard of such charges against the Sherman Service when it was the first detective agency, but never since it became an "industrial engineering and co-ordination bureau." Dunn replied that all the agencies had effected were performed since that name was changed in 1918.

Spies "Thorough Criminal."
Dunn, baboon, restful the serious tone of the charge, asked Fannon to tell them plainly if the Sherman ever used what was known in the labor movement as spies. Fannon trembled at the question, but he did not deny it.

Fannon then began to crawl, as he had only been with the firm 14 months, and that Mr. Sherman would be glad to appear and refute the charges.

It was agreed that Fannon should produce Sherman at the round table discussion next morning. Dunn was asked to come and present his charges.

Spies Back Down.
Next morning at the conference the business men found no Fannon, no Sherman, instead a messenger brought a letter from the agency charging that "the radical elements" present at the previous day's session had insulted Fannon; that the Sherman Service was not on trial and that it would not dignify the ramblings of the questioners of the day before.

The matter was referred to the conference. It was agreed that the Sherman Service should be dropped from the discussion. "It has not accepted the opportunity," declared the chairman of the meeting. "The question has been sidestepped."

A Challenge.

THE Harlem Branch of New York City challenges every Workers Party Branch in the nation to send in an order for at least 100 copies of the first campaign issue. This branch has ordered 200 copies for distribution.

Act at once! Take this up at your next branch meeting. Every branch will be glad to send for at least 100 copies. Let us roll up a big circulation for the First 1924 Communist Campaign issue of the DAILY WORKER. Use this blank.

FOR THE COMMUNIST CAMPAIGN

DAILY WORKER,
1113 W. Washington Blvd.,
Chicago, Ill.

For the enclosed \$_____ send me _____ copies of the First Special Communist Campaign edition of the DAILY WORKER, to be issued Saturday, Aug. 20, at the special rate of 3/4 cents per copy, or \$3.50 per hundred. I want to help raise the standards of Communism in this campaign for the Workers Party ticket—Foster and Giltow.

the British Labor party to office has the following to say:

PROBABLY, as many British proletarians agree, the moribund Liberal party will sooner or later give up the ghost, bequeathing, we fancy, a good part of the residue of its wit to the Labor brethren, and its worldly goods to the Conservatives. Thus there will be a united front against the powers of the Left, and all that the right-thinking leaders will then have to do is to find the Socialist party. If Continental experience is a guide, Socialist parties once in office are likely to be impelled so far to the Right that they cannot see Karl Marx thru the most powerful telescope. We note that Mr. MacDonald has already offered a plump denial of which over a score of the pacific comrades from the Clyde and other reddish districts could not bring themselves to vote for. He is finding that the job is the prerogative of the British Empire, not the Trade Union International, and he is compelled to do precisely what any of the rest of us would do in such a position.

WHAT the Communists have repeatedly called for is the attention of the British people to the fact that the British Labor party since its assumption of office. The machinery of central government cannot be used to emancipate the workclass and until the workers grasp the capitalist machinery and organize their own central government, the British Empire in the development of a Communist society cannot be started. This means nothing else but the dictatorship of the proletariat, and the British Empire is not building battleships or organizing armies to fight the Hindus or blow Egyptian towns into smithereens, but it is fighting the world over since the beginning of the strike. The prisoners were released on bail furnished by the organization.

But the difference between the British

WU KLUX KLAN HAND SEEN IN MINER MURDER

Worker Leaves Pregnant
Wife and 2 Kids

(Special to The Daily Worker)

DOWELL, Ill., August 20.—

While on his way to the coal company's office here, a miner whose name is not known, was cold-bloodedly shot down in the middle of the road by two bullets fired in quick succession.

Leaves Pregnant Wife.

The miner was on his way to get the miserable pay check that is now the lot of the coal digger when he was fired on. Ten minutes later he died in the arms of his wife, surrounded by friends. He leaves a pregnant wife and two little girls.

The murderer was caught with his gun in his hand and he is in jail now, awaiting trial. The work here would not, however, be surprised to learn that the killer is to be released since he is a kind of a man not so long ago and was free in a few hours.

K. K. K. Suspected.

It is rumored that the crime was instigated by the Ku Klux Klan, which is playing its double game—appealing to the miners to join and persecuting those who are wise to their purpose.

AMERICAN DIPLOMACY IN CHINA NEEDS NEW SUIT OF CLOTHES

(Special to The Daily Worker)

WASHINGTON, August 20.—The Chinese government and the consequent stiffening of the Oriental spine against American imperialism is responsible for the calling of American Ambassador to China, Jacob Gould Schurman, to Washington for a conference with Hughes and Coolidge.

Schurman will lay before the president and Hughes an exhaustive report on conditions in China and the Orient.

The harmony which existed in the Far East after the Washington arms conference is now non-existent. Foreign interests in China no longer cooperate but follow the general policy of "every one for himself and the devil take the hindmost."

Another and more serious complication than the growth of diplomatic independence on the part of the representatives of capitalist governments in Peking is the entrance of Soviet Russia as a dominating figure in China.

The Soviet government in sending a fully accredited ambassador to China added to the difficulties of the United States. As the policy of the capitalist governments has been to send ministers instead of ambassadors to China, the Soviet ambassador became immediately on his arrival the dean of the diplomatic corps having highest rank and according to usage in Peking, would be the speaker for the corps in any dealings with the Chinese Foreign Office.

In the case of the United States any dealings with China thru the Russian ambassador would be tacit recognition of the Soviet government.

Troy, N. Y., Journeymen Tailors Give Support to Max J. Sillinsky

(Special to The Daily Worker)

TROY, N. Y., Aug. 20.—Journeymen Tailors' Union of Troy has pledged its support to Max J. Sillinsky for general secretary of the national organization in the election soon to take place, and has sent the following letter to all locals of the union:

"Troy, N. Y., Aug. 16, 1924. To the General Membership of the Journeymen Tailors' Union of America.

"Greetings—Journeymen tailors that have been chosen for the broad masses of tailors will vote for Max J. Sillinsky.

"It happens that we know our situation in the shops from coast to coast but a few are too cowardly to admit it.

"There often appears an article in the Tailor by Delamaine. It reads 'The Mind.' That reminds one of the Gypsy card reader. The old gentleman is reactionary and cares nothing for the broad masses of our tailors in the shops.

"A Texas tailor writes, 'I am because they cannot go to Russia, where Haywood is, but he mistakes it for the fact that we have to use the word 'I am' and ask the boss for a job, without protection as to wages and conditions. The situation is such that the tailors are in a pitiful plight.

"Now, brothers and sisters, vote for Max J. Sillinsky. Follow Troy, N. Y. We voted almost 100 per cent for Max J. Sillinsky.

"Brothers, please read this letter at your meetings and do justice to yourselves. Let's be alive in our organization.

"Fraternally yours,

"H. LERMON, President.

"A. DE LUCIA."

RICHARD M. WHITNEY, NOTORIOUS STOOLPIGEON, DIES OF HEART FAILURE IN NEW YORK CITY HOTEL

(Special to The Daily Worker)

NEW YORK, August 20.—An attack of heart disease eliminated one of the most despicable stoolpigeons that ever dragged his almy trail across the American map, when Richard M. Whitney, director of the American Defense Society, succumbed in the Hotel Pennsylvania here a few days ago.

He was in the city making preparations for participation of his organization in the Mobilization Day exercises. As a matter of fact he was the whole organization.

Whitney first broke into print shortly after the Bridgeman Communist raid. He ran a series of articles on the "Red Menace" in the Boston Transcript, a paper with which he was connected. Afterwards he went to Washington and blackmailed the politicians for funds with which to keep his bureau functioning. He was in close touch with William J. Burns and no doubt shared the graft with that worthy and his millions.

Since Whitney driven to disgrace from his berth in the Department of Justice, Whitney and the other butchers who live on the offal dropped into their hungry maws by the capitalists, expected him to time. The redlight, blood-fighting days of the "jolly good fellow" Harding era were at an end, when the illumination from the Teapot Dome sent the mind and female prostitutes that surrounded the G. O. P. administration running for cover.

Pateron Gets Labor Bank.

PATERSON, N. J., Aug. 20.—The number of labor banks in the country has been increased to 34 with the opening of the Labor Cooperative National Bank in Paterson. Why Paterson should be plagued with this new tool of labor fakers has not yet been explained.

More Jobs in Mines.

MEXICO CITY, Aug. 20.—As a protest against non-payment of four days' wages, all the workers of the Tehuantepec railroad are on strike. The railroad offered 60 per cent cash and the rest in notes, but the workers refused these terms.

Strike for Payment of Wages.

INDIANAPOLIS, Ind., Aug. 20.—Unemployment among the coal miners in Indiana is increasing by leaps and bounds. The latest survey shows that 125 miners are out of work in Indiana, in addition to those reported laid off in the last report, Chief Inspector C. Littlejohn announced.

TALLENIRE HAS GOOD MEETINGS ON COAST TOUR

Workers Listening to Communist Message

(Special to The Daily Worker)
SEATTLE, Wash., August 20.—"Meetings on my coast tour have been most successful," said Norman Tallenire, Workers Party speaker and organizer, upon his arrival here after a short tour thru the west, addressing gatherings on the anti-war stand of the Communists.

Branch John W. P. In Denver, an enthusiastic crowd met in the Jewish Labor Lyceum, at which Tallenire spoke on the chairmanship of A. A. Brown, recent Communist member of the House of Representatives, the few days previously the socialist party branch had been swung into the Workers Party.

At Lake City, the meeting, most created much enthusiasm and will result in the revival of the party.

Five hundred gathered in Symphony Hall to cheer the Communist International in Los Angeles at the Tallenire meeting. Excellent preparations had been made by Communist Executive Lewis. The meeting in San Francisco, under the chairmanship of Jack Carson, editor of Labor Unity, was equally successful.

Portland, Ore., where 200 workers were present, where Tallenire spoke on the chairmanship of A. A. Brown, recent Communist member of the House of Representatives, the few days previously the socialist party branch had been swung into the Workers Party.

At Seattle, the meeting, most created much enthusiasm and will result in the revival of the party.

RUSSIA IN PLAN FOR FINANCIAL STABILIZATION

Soviets Outline New Monetary Policy

The text of the address made by Sokolnikov, Soviet Russia's financial commissar, at the Russian financial conference in the last week of June, just received here, contains the following summary outline of the financial purposes and policy of the bureau:

1. By means of the stable currency to overcome the isolation of the economic activity of the farmers and to strengthen the basis of an organized market.

2. By the regulation of the money rate to stabilize the key to regulating the entire commodity market in the hands of the state.

3. By means of a suitable budget and credit policy to reconcile the interests of the state as a whole with those of the state economic organizations, and to bring the development of big industry into permanent agreement with that of small farming.

4. From a financial policy based on readiness to proceed to an economic policy of permanent agreement with the workers.

5. Financially to organize and mobilize the internal forces of the country in such a manner as to bring about the possibility of a permanent agreement with the workers.

6. Financially to organize and mobilize the internal forces of the country in such a manner as to bring about the possibility of a permanent agreement with the workers.

7. Financially to organize and mobilize the internal forces of the country in such a manner as to bring about the possibility of a permanent agreement with the workers.

8. Financially to organize and mobilize the internal forces of the country in such a manner as to bring about the possibility of a permanent agreement with the workers.

Views of Our Readers

N. D. Farmer for Communists. To the DAILY WORKER—The farmer is not ready for Communism. Let's see how that holds up against what happened in Williams County, North Dakota.

At the convention of the Non-Partisan League, Andrew Arnold for sheriff at the June Primary received 27 out of 100 votes. In the June Primary for County Treasurer received 27 out of 40 and A. C. Miller for House of Representatives received the highest vote of all.

More Communist propaganda among the farmers showing up LaPoltte's past record will soon be his influence. What we need is more literature showing the LaPoltte.

Harvey has just started. Threshing will be on in about two weeks. Then we are going to use some of the money for the campaign of Foster and Gilow.—A. C. Miller.

Call on Workers to Write. To the DAILY WORKER—I would suggest that the DAILY WORKER carry more word pictures of Communist factories, agricultural communities and co-operative system of distribution.

We must instill our Communist principles into the minds of the people. Therefore, let every worker, who can express himself, contribute to our educational program.

Central Executive Committee, Workers Party, Rebukes Wrong Policies in Printers' Union

The Central Executive Committee of the Workers Party has examined into the policy followed by Comrade M. Wicks and a few other Communists in the recent election in the International Typographical Union. It finds that these comrades openly supported for James various reactionary candidates, including the notorious labor leader, John Lynch, for the position of international president. It finds further that these comrades took this action entirely upon their own initiative and without consulting the party committee. The Central Executive Committee has examined Comrade Wicks' explanation, which is to the effect that this action was taken in order to defeat Howard, the reactionary candidate who was given the T. U. in the recent past. The C. E. C. considers as entirely unwarranted the explanation and rebukes Comrade Wicks. Because Howard is a traitor to the rank and file of his union is absolutely no reason why Communists should support against him another traitor, equally bad or worse, the capitalist henchman and ex-Tammany politician, Lynch. In the recent elections the rank and file of the T. U. either should have nominated a candidate of their own, or they should have supported the candidate who fought both Lynch and Howard and exposed their treachery. The C. E. C. categorically condemns the policy championed by Comrade Wicks as rank opportunism and as highly detrimental to the Workers Party. It cannot and will not be tolerated on the part of Communists.

Where revolutionary development was concerned, our experience have shown that Russia was far in advance of all other countries. But as soon as political power had been con-

quered, it soon became evident that Russia was backward, where the economic development was concerned. These two circumstances are closely related to one another. The comparative backwardness and lack of economic development of Russia, i. e., the large proportion of peasants, the industrial workers, produced the peculiar character of our revolution, namely the union of the proletariat with the peasants. It was this union which made the country ripe for revolution, and it is also this union which is producing the greatest difficulties in the present period of transition to Socialism.

To turn now to the agrarian question. The commission received a detailed report on the agrarian program in its relation to the general program. Lenin's views on the agrarian question at the Second Congress, and the theses of the Fourth Congress, were taken as a foundation. The points discussed were the following: 1. The agrarian program should be adopted towards the various bourgeois parties for agrarian reform, such as that of dividing large estates for the benefit of the peasants. 2. The question was asked, what should be the attitude of the Communist program to bourgeois parties? It was decided to take up the attitude of neutrality or of opposition to plans of this kind. The fact that they are only political moves should not be allowed to gain a hold on the masses; but, neither must they be dragged along at the heel of a movement of this kind. The fact that they are only political moves should not be allowed to gain a hold on the masses; but, neither must they be dragged along at the heel of a movement of this kind.

Secondly, the classification of countries according to whether they are the exploiters or the exploited in the agrarian question. Countries are partially or wholly independent of the great imperialist powers. Thirdly, the class structure of the agrarian question. The strength of the various classes in each country, of course, with special reference to the working class. Fourthly, toward Socialism. During the discussion special stress was laid upon one point which is important for us in defining our own standpoint in distinction to that of the Second International, namely the fact that one must very carefully differentiate the development of a country from the point of view of Socialism. The aspects which determine the transition to Socialism are the same as those which determine the transition to revolution. In considering the question of the transition to Socialism, the important factors are the technical and economic state of industrial development, the degree of centralization, and the proportionate strength of the various classes of production in the same country.

A typical instance of the way in which the point of view of revolution is provided by Kautsky and showed itself in a particularly blatant way in his treatment of the question of the agrarian revolution. For in Russia we can see, with the greatest clearness, the difference between the two aspects.

Y. W. L. and W. P. Members in Food Trades: Attention!

A special meeting of the party and league members of the food trades has been called for Saturday night, August 22, at 8 o'clock, in Room 307, 166 West Washington St.

There is the utmost need of a thorough discussion on the matter of food trades program and policy of the party in the food trades. There is much confusion prevailing and therefore the necessary and expected activity among the comrades.

At this meeting we shall have a discussion of the program of the T. U. E. L. and party in the food industry, of the past activities, grievances, etc. in an effort to clarify the mind of the comrades. The program, policy, etc. and program for the work in the city will be presented.

We expect every member in the food industries to be present on time at this meeting and to contribute his share in the discussion.

Fraternally yours,
WORKERS PARTY,
LOCAL CHICAGO.
MARTIN ABERN, City Secy.
A. OVERGAARD, Ind. Org.

Chicago, August 21st will be a gala day for the comrades of Los Angeles. The Young Workers League will have a picnic at Tanager Canyon Beach where there will be games, entertainments, dancing and refreshments. The picnic will start at 10 o'clock. The Young Workers League will have a picnic at Tanager Canyon Beach where there will be games, entertainments, dancing and refreshments. The picnic will start at 10 o'clock.

HUGHES PEEVED AT SOVIET RULE

Secretary Hughes has played the Japanese as against the Russian game, in the orient, while trying to keep China safe for American commercial and banking exploitation.

What hurts him quite as much, perhaps, is the fact that the Russian industry is to be spent for Chinese education under joint Soviet and Chinese supervision. All expenditures must be approved by the one Russian and Chinese member of a special board. This sounds like an opportunity for the teaching of young Chinese in the light of the Russian revolution. It has endless possibilities.

Will Diamas Clarifies. And then there are the butcher officers and Cossacks of the czarist armies who took refuge in Siberia after the Russian revolution. Minister Koo has notified Karakhan that all of these will be dismissed—"as they constitute by their presence and activities a menace to the safety of the Union of Socialist Soviet Republics."

There are other agreements, dealing with the restoration of government property such as railways and telegraph lines, to be submitted to the Russian nationals in China to Chinese and Chinese courts. But the big things are the capture of the railway, under the Chinese management, and the notification to Mr. Hughes that henceforth he must discuss with the Moscow and Peking governments, jointly, his \$20,000,000 loan, announced some time ago, against the railway for its upkeep during the years of Allied intervention in Siberia.

Control Railway Situation. Next, the budget and estimates are to be in the sole custody of a board of five auditors, three of whom shall be named by Moscow, acting jointly with the board of directors. The board named will then stand at eight Russians and seven Chinese, thereby enabling the Russians to determine how much money shall be spent. This is the real control of the whole railway situation, since the effort of the road will be turned by this majority to restoring their traffic to Vladivostok. The board is to be directed to diverting funds from the Japanese-owned South Manchurian Railway which runs south to Dairen, a greater distance to sea-board, to the railway which is a political and moral setback, but a serious commercial loss, by this Russian victory.

To All Party Members

Dear Comrades—A special membership meeting of Local Chicago, Workers Party, will be held for Wednesday, August 27, 8 p. m., at the Workers Lyceum, 2733 Illinois Street. Members of the Young Workers League are also to be present.

This membership meeting is a combination elections campaign and local party meeting. Reports on the progress of the Young Workers League in Chicago will be given and also of the progress being made in the DAILY WORKER and membership campaign drive.

Many national campaign managers in the elections, will report on the progress of the campaign for Foster and Gilow nationally, in addition to the local campaign. It will be held on the state and local activities.

Ernest Browder, editor of the Labor Herald, will report on the DAILY WORKER campaign drive.

Every branch has to make sure that its DAILY WORKER agent is present and every member of the branch campaign committee.

Already excellent progress is being noted in the matter of getting the petitions signed to place the Workers Party candidates on the ballot.

KENTUCKY MINE OWNERS PLEDGED AGAINST UNIONS

Sign Contract Not to Hire Organized Men

(Special to the DAILY WORKER) INDIANAPOLIS, Aug. 20.—A contract by which the mine owners would not employ any union miners in return for which the mine workers promise among other things not to join any union is in force in south-eastern Kentucky fields, according to the United Mine Workers of America. The union makes public the following one-sided anti-union contract which owners force on their workers in some of the fields:

Split-Side Sound.
"In order to preserve to each man the right to do such work as he pleases and for whom he pleases and the right to payment in proportion to services rendered, and to preserve the natural and constitutional right of individual contract, to preserve to each individual the fruit of his own labor and to promote the interest of both parties hereto, the employer, and the employee, agree as follows:

Won't Hire Unionists.
"That so long as the relation of employer and employee exists between them, the employer will not know, hire, employ or keep in his employ, nor any member of the United Mine Workers of America, the I. W. U., or any other mine labor organization, and the employee will not join or belong to any such union organization, and will not aid or encourage or approve the organization thereof, it being understood that the policy of said company is to operate a non-union mine and that it would not enter into any contract of employment under any other conditions; and if when said relation of employer and employee at any time or under any circumstances terminates, the employee agrees that he will not join or there after in any manner molest, annoy, or interfere with the business, customers or employees of employers, and will not aid or encourage any one else in so doing.

"Witness the following signatures this _____ day of _____, 1934."

Distribute a bundle of the DAILY WORKER's first Special Campaign Edition, dated Saturday, August 25.

DENNIE BATT'S PAPER IN ATTACK ON ONE FAKER WHILE SUPPORTING COOLIDGE BACKER

By OWEN STIRLING
(Special to The Daily Worker)

DETROIT, Mich., August 20.—Under the caption, "For a Meas of Fottage," the latest issue of the Detroit Labor News, organ of the Detroit Federation of Labor, carries a justifiable attack on former labor union bureaucrats who are using their former labor alignments for prestige in the ranks of one of the other of the Wall Street parties.

Among the former bureaucrats named are William B. Wilson, former secretary of labor and long ago general secretary of the United Mine Workers. Mr. Wilson expected that the labor movement would take without question his statements regarding the progressive character of John W. Davis. Fortunately Mr. Gompers and others are as well aware of Davis' record as Mr. Wilson is, and his preposterous claims for the democratic presidential nomination have been exposed.

"Mr. Powers, one-time leader of American labor, is another gentleman who is trying to warm himself by the fire of the fire of his reputation. He differs from Wilson in that he is endeavoring to gain support for the republican candidate."

Twined and Twined.
The Detroit Labor News is committed to the program of the Conference for Progressive Political Action. On page one of the same issue it carries a political story containing the following paragraph relating to the conference's gubernatorial candidate in Michigan:

"The candidate for governor, Herbert F. Baker, is also satisfactory to the overwhelming majority of unionists of the city and state. In addition he has the farmers and many business men's organizations behind him. Mr. Baker is a real farmer and has proven by years of service in the state legislature his devotion to the interest of the toiling masses."

Baker, candidate for the republican nomination for governor, is supporting for re-election Calvin Coolidge, strikebreaker and also avior of the Teapot Dome corruptionists. The Detroit Labor News editor does not include Baker with Wilson and Powers. Many trade unions in Detroit are wondering what it is all about.

COMMUNIST RIPS INTO SOCIALIST PARTY IN BOSTON

Ballam Boosted for Governor

By JAMES J. LACEY
(Special to the DAILY WORKER) BOSTON, August 20.—Pemberton Square, Boston, for a long time the hidden burial place of the "socialist" party "organization" here, was given an injection of Communist propaganda by the soap boxers of the Workers Party that took it up from a deep slumber of several years standing. The speaker, comrade Hubert Riley, as the chairman said in presenting him, required no introduction to Boston working-class audiences. For over 30 years he has been soap boxing in the ranks of the fighters for the proletarian revolution.

Riley spoke for two hours and held the continued interests of his hearers who numbered over 300 for that time. At the close of the meeting over 200 Daily Workers were sold or given away to those who because of unemployment were unable to buy.

Reviewing the course of the labor movement of the last few years and using his own experiences as a guide, Riley actioned the explosion of the myth of the LaFollette Messiah in a manner that left no doubt in the minds of his auditors as to LaFollette's incapacity to lead the workers as a traitor and menace to the working-class LaFollette's endorsement by the socialist party was shown up as a fitting end and organization for the last few years of a mis-spent life of prostitution and betrayal.

Enthusiastic Anti-Foster.
The candidacy of Foster and Gittow was received with great enthusiasm. In the course of his talk Riley stated that "John Ballam (our district organizer here and Communist candidate for governor) was elected governor, his first act would be to disarm the workers and the labor has been refused to the workers in the factories with the instruction—these factories are yours boys—hold them for your selves here and Communist candidate in the audience a real insight as to the limits of political action as seen by the Communists.

The candidate party of all these of them—came out of their place of concealment and for the first time in some years came in contact with the masses of the workers.

The questions they asked displayed their complete disorientation and dislocation from the progressive movement of the workers.

Comrade Riley paid his respects to the traitors and betrayers from Hill quit down—Dr. Olen, Roemer and Beak to Levensky—who was one of the minor yellow press.

The crowd was in no mood to tolerate any socialist party nonsense or trickery, and at the close of the meeting smothered them under a heavy barrage of criticism and contempt.

Wobblies Co-operate With Party.
The workers who were in charge of the meeting in selling literature and the whole crowd at the place was interested and sympathetic. This was for a regular meeting of the party and a goodly group of party prospects.

An exhibition soccer ball game was played by the Y. W. L. branch 2, soccer team.

Grounds will be open from 3 a. m. until midnight. In case of heavy rain the celebration will be held at the House of Masses, corner of St. Aubin and Gratiot Aves.

Distribute a bundle of the DAILY WORKER's first Special Campaign Edition, dated Saturday, August 25.

UNEMPLOYMENT AND KLAN ISSUES

(Continued from Page 1)
who had a good word to say for the district. It was the subject of Farrington with real feeling, and "thief," and "graffer" are the prettiest names they call him.

Through the long auto ride the miners pointed out to me the largest mines in the district—all shut down.

Ramshackle Hotels.
Thayer is typical of the mining towns of the district. The laws and gardens are well kept, but this is a sign of poverty, rather than otherwise, as it shows that the miners, due to unemployment, have plenty of time on their hands to trim their lawns. The houses are all one story, with two small rooms, and there is no inside plumbing. The backyard toilets and backyard pumps are without exception the only facilities supplied by the Chicago. Franklin and Wilmington Coal Company, which owns the houses as well as the only industry in the town.

I was scheduled to go to Diverson, but the one auto found going to the town was a party of three young Ku Klux Klanmen, who were first going to the Klan picnic in Girard. So I piled in and went eight miles further south to Girard, where the Klan picnic was being held.

They talked about the Klan, and gave me an application to join. I meekly suggested that I didn't want to join as the Klan and a tendency to drive the workers and lynch too many people, but they good naturedly told me there is good and bad in all organizations.

3,000 at Klan Picnic.
Three thousand people were at the Klan picnic in Girard. The large majority, I should say, were of curiosity and to find a little amusement. Some of the younger men wore streamers declaring, "I'm looking for a girl and headline of girls had similar streamers stating, "I'm your vamp." It was like a cheap carnival, with a merry-go-round, hot dogs and dancing.

I tried to discuss the Klan with some of the men, but they were very cautious about showing their attitude toward the Klan. Reverend Charles T. Farrington, who was speaking at the picnic, lynch by mob. But there was no riot reported, so my tobacco smoking friend must have "gotten away" with his little quality expedition.

Farrington-Mine Barons' Chorus.
The following letter is significant, because it shows the results of Farrington's declaration that the only remedy for unemployment in the Illinois mine fields is the speeding up of coal production on which the republic was founded, and pleaded, "True, we exclude the Negro, the Catholic and the Jew, but can't we get a little more coal?"

The letter, given by the DAILY WORKER to the miner who received it, follows:

My Mr. Jensen, Ck. No. 62, Sangamon Coal Co., Springfield, Illinois.

Dear Sir:—In reading on the screen on Tuesday, August 5, I caught a car of coal under your check number that contained a very small amount of lump coal. The percentage of lump in this particular car was so small that the company cannot realize out of the car of coal the few pennies it cost to hoist it to the top.

You no doubt know that screenings and egg coal have to be sold at a loss to the operators. This is a lie. This means that if you shoot your coal all to pieces the operator cannot continue to operate. We are trying to help you, and if you expect to help you you have to help us by loading good coal. We want to employ you as much as you want to be employed, but you have to help yourself as well as the company by giving us a grade of coal that we can sell. In other words, whether or not this mine operates depends on you as much as on me, and you are not fair to yourself and the other employees of the company by loading the grade of coal that you are putting over the screen.

The mine manager and face boss are willing to help you at any time. If you do not know how to place your shots to get the best results, ask them and they will help you. Think this over and make up your mind. You will be better off at the end by giving more attention to the grade of coal that you are loading.

Very truly yours,
SANGAMON COAL CO.,
(Signed) R. J. Wilcoxson,
Secretary-Treasurer.

Watch This Reconstruction!

From the American Civil Liberties Union we learn of efforts now being made by the attorney general to overhaul the department of justice and give it more of a "normal," less of a state-of-siege like appearance.

If what Mr. Stone has said is the truth, then at least sixty agents of the department of justice have been dismissed since his appointment. The red-baiting division of this department is being cut down. Furthermore, our learned attorney general is also replacing professional detectives by law school graduates. Outright co-operation with so-called patriotic societies in their anti-labor and open shop propaganda is also reported to be in growing disfavor with the new department of justice head.

It is yet too early to say definitely whether this reorganization of that department of the United States government, which serves as the invisible underground link between the biggest business interests and the most responsible governmental figures, will serve to increase its efficiency in rendering service to the employing class. Sufficient time has not yet elapsed to give the new system a chance to work.

All we do know is that at bottom the substitution of ignorant, inefficient, easily detected detectives with smooth, cultured, highly trained law students, is not in itself a boon to the workers. Under Stone's rule, as well as under Daugherty's rule, the department of justice and all the other departments in the United States government are securely in the hands of the big bosses. No one can disguise the fact that as long as this condition prevails the lawyer-detectives may prove even more deadly effective against the working men than the incompetent gang of bootlegging stool pigeons formerly in the employ of Burns.

At this time there is one thing certain about the reorganization of the department of justice. As a result of the dismissal of some of these scab headers and spies, the private detective agencies will redouble their efforts to demoralize and disrupt the workers' organizations. Many of these stray watch dogs of the open shoppers will be employed by the private agencies as special "radical," "red experts."

The probable transfer of the army of stool pigeons from the Washington payroll to the roster of private scab, detective agencies should put every labor organization on extra guard against these dangerous parasites and against such a poisonous infusor.

Leser Majesty in Wisconsin

Chafing under the iron dictatorial rule of La Follette machine, Lieutenant Governor Comings strongly protests against the senator's endorsement of Governor John C. Blaine.

Lieutenant Governor Comings is running against Blaine, the present incumbent in the gubernatorial office, for the high honors of chief executive of the state. Mr. Comings feels that his own chances have been seriously hurt by La Follette's endorsement of his opponent. He therefore throws back in "Battling Bob's" face the plea the latter made when he was running for district attorney in Dane county without the approval of the political higher-ups of those days.

"I know no reason why I should consult you. I have been out in the country consulting the people," is the Comings answer to La Follette, the big boss of Wisconsin politics. These are the very words used by La Follette when he was fighting the bosses in 1880 and seeking to become the state boss himself.

This defiance of La Follette is really lese majesty in Wisconsin. In the Badger state La Follette's word is law. As a lover of the purest of democracy, Mr. La Follette has set up a dictatorial political machine in his state, excelling in bossism the machines of nearly every other state in the country. Worse than that. By endorsing Governor Blaine, La Follette is making an attempt to continue his iron hold on the state machinery. And in making this attempt La Follette is supporting a governor who has time and again shown distinct hostility to the workers. We need but recall the attitude of Governor Blaine in the controversy over the abolition of the National Guard.

Mr. Comings had better beware not to lose his head on La Follette's political execution block. To remind the senator of Blaine's being an enemy of genuine progressivism is to be wasting valuable time. La Follette has misused phrases for too many years to be scared by such talk. Battling Bob has entered the ring for Blaine because he is convinced that the governor is better fitted than Stone and is the best fitted to keep intact the system of fraudulent progressivism now holding sway in Wisconsin.

Exploiting the Negroes

It is not only the white capitalists who exploit the Negro workers. The black capitalists get their hands on the game also, even though they have no billions among them to dramatize their part in grinding down the Negro workers. But there is another exploitation going on among the Negroes, that is brought sharply into the foreground this month by the convention of the Marcus Garvey organization in New York. It is the exploitation of the desire for emancipation, by turning this desire toward a Utopian "back to Africa" project instead of organizing for emancipation here in America; by substituting a lot of hocus-pocus about making God and his angels in the form of Negroes, instead of fighting for the rights of the Negroes here on earth as a part of the working class; by diverting the whole movement of awakening dark-skinned workers into the blind alley of evasion of the pressing problems in America for the bright dreams of migration to another continent.

To the extent that Negroes have achieved organization, and have been jolted out of the old ways of thought, some good has come out of the Universal Negro Improvement Association. It is not suggested for a moment that Negro workers should cease from activity in this, and in all other mass organizations which contain large numbers of workers and present the opportunity for these workers to crystallize themselves as a definite group, advancing definite demands, outlining a definite program directed towards connecting up the struggles of the white and black workers into one common struggle. But when class-conscious Negro workers enter into such movement as the Garvey aggregation, they must do so with the definite objective always in mind, of injecting the issues of the class struggle, of showing the Negro workers the fundamental hostility of all capitalists, black and white, to their interests—and the fundamental hostility of the interests of the white and black workers.

The dramatics of Marcus Garvey, under cover of which he sabotages the struggle against the Ku Klux Klan, while he builds up a petty-bourgeois class of "leaders" with a vested interest in subduing the class struggle in America with the upate of emancipation thru running away from this continent, are another form of the exploitation of the Negro. Only thru struggle against such ideas and against such leadership will the Negro workers be able, in co-operation with their white brothers, to abolish exploitation.

Help the Garment Workers

Part of the great battle of the clothing workers to halt the "open shop" drive, but hitherto given little attention, is the splendid battle being waged in Belleville, Illinois, by the local organization of the Amalgamated Clothing Workers. Yesterday the DAILY WORKER told the story of this fight, which should rouse the admiration of all militant workers, and will continue to assist with all its power to win the battle.

But, of course, the real winning of the fight in Belleville depends upon the union men and women in that town and in the vicinity, not only the clothing workers, but all others. Especially it is the opportunity and the duty for the members of the Workers Party and of the Trade Union Educational League to throw themselves wholeheartedly into the fight. It is in just such battles that the party tests out its members and decides whether or not they are worthy of being members of the Workers Party. Those who are real Communists will be in the front ranks of such fights as this of the clothing workers in Southern Illinois.

Why have the officers of the Illinois Federation of Labor not called a statewide conference to work out a plan of action to fight against the terrible unemployment? Because they are too busy trying to elect Len Small, agent of the mine owners. Meanwhile the bosses are not idle. They meet to lay plans for the "open shop." The rank and file must get busy and force action.

La Follette will promise to bring the workers back to the early days of capitalism and competition. Foster will urge the workers to look forward to the downfall of capitalism and the establishment of a new order of society where the machinery of production and distribution, developed under capitalism, will be used for the welfare of the workers and not for their enslavement.

William Z. Foster, during his career of service to the American workers has two outstanding achievements to his credit, the organization of the packinghouse workers and the steel workers. Thru the treachery of the labor fakers these two great efforts were sabotaged. Foster is a strike organizer and a union builder. His opponents on the capitalist tickets are strike breakers and union smashers.

Martial law has been declared in Egypt. Who brings WAR thus into the front page news again? For what? Is the "pacifist" MacDonald, premier for the "Labor" government of Britain? Every day the fakers are forced to expose themselves more and more.

William Z. Foster and Benjamin Gitlow stand for Communism in the United States. They stand for the right of all to have access to the machinery of production. They stand for the right of every worker to life and the means whereby to sustain life. They stand for the abolition of the slave system, The capitalist system.

Class War Against Imperialist War!

Editor's Note.—Dangers of new wars are set forth in gripping form in the Manifesto of the Communist International, the latest program of the World War. The facts set forth are of intense interest right now, with the agreement of the Communist International in the terms of the Morgan-Dawes reparations plan. The DAILY WORKER today publishes the third issue of this Manifesto, as follows:

Against War!
Against the Bourgeoisie!
Against the Social Traitors!
For the World Revolution!
For the Dictatorship of the Proletariat!
For Communism!

THE Versailles peace treaty and the imperialist war are pregnant with the seeds of another war. The ruling classes of France are coming to feel, more and more strongly, that the reign of terror they have created in Germany cannot continue much longer. The French bourgeoisie—reactionaries and "radicals"—stand in equal fear of German revenge, but the German bourgeoisie is not so patient and it prepares for it. The German bourgeoisie, which is willing to come to an agreement at the expense of the peace, is for its part waiting impatiently for the hour of revenge to strike. The antagonism between England and France in Europe and in the East is coming to a head. Diplomatic treaties and the program for the creation of air fleets and the manufacture of the chemical means of war, is really being planned out for the purpose of creating a new world war. While Herriot and MacDonald are lovingly cooing at each other, the general staff at Paris is working out plans for the conquest of Europe, attack on London, and the British state is buying itself with the plan

(Continued from Page 1.)

at least three hundred and twenty-five, out of the four hundred and thirty-five, in the world. The war is either directly or indirectly associated with, or serving the ruling class. In the Senate, the big interests have at least seven-nine out of the ninety-three members on their side, either thru economic or social control.

In the state of Wisconsin, where La Follette is in the political arena, the situation is nearly the same as in Washington, where Coolidge is the chief executive. On the basis of an investigation made by the Wisconsin State Federation of Labor, as reported in its 1921 convention proceedings, we find the following roster indicating who is who in the senate and assembly of the model commonwealth.

There were at that date in the Wisconsin senate, one auctioneer, four bankers, one chessman, one contractor, one doctor, five farm owners, one insurance man, two real estate men, two retired capitalists, two publishers and journalists, one lumberman, four manufacturers, two merchants, one public service agent, two salesmen, eight lawyers, and only one mechanic. At the Wisconsin assembly, there were represented in the assembly the following occupational divisions: one architect, four bankers, four business agents, one insurance corporation official, one doctor, forty-four farm owners, one hotel keeper, two publishers, ten lawyers, one live stock buyer, four lumbermen, seven merchants, four real estate dealers, six retired capitalists, three salesmen, two insurance men, one fisherman, and only seven mechanics.

Thus we find that out of a total personnel of forty-two senators, there are only four members of the working class, and that out of a hundred and ten assembly men, there are only seven members of the working class. The State Federation of Labor, which is extremely friendly and a strong supporter of La Follette, was rather charitable to the Wisconsin legislature in its characterization of the ownership of the state government by the employing class as follows: "In the Senate there were nine members who were not capitalists, but friends of labor, and four who cannot be relied upon for full support, but not antagonistic. The rest were entirely out of harmony with labor's program and should be classed as representing the interests of capital."

"In the assembly there were thirty-five members considered considerably reliable in the interests of labor. The balance sixty-five members, may be classed as ultra-reactionary and absolutely controlled by special interests."

"The same reactionary speaker of the house that presided in 1919, was again elected in the 1921 session and his record in the legislature and business were plainly shown on several occasions during the session."

Serves Middle Class.

In the view of Mr. John Ballard as expressed in the Outlook for September 1, 1923, the employing class ownership of the senate and assembly in the state of Wisconsin is to be ex-

plained as follows: "Business of the state is represented by manufacturers and capitalists, and against La Follette and his policies, but business in the person of the state is represented by the 'Bolsheviks' in Littleton and Big One."

The smaller states of Europe are behind the great powers in strength, but not in spirit. The smaller states of the world have forfeited the last remnants of their independence, while the great powers have been drawn out of the war, are being born into the world with the iron ball of dependence chained to their feet. At the same time, the great powers, the medium-sized states and the small states are grouped together in various ways. The states which are located in central Europe feel themselves drawn toward France, as a prisoner feels himself drawn to his jailer. The small states on the coasts of Europe feel the need of England. The choice between two states is being made by the small states, not on the basis of desire, but on the basis of their situation taken as a whole. The great powers are in a position to demand a part of the world, a new world within a few days after its outbreak drew the great powers into the small states into the bloody maelstrom. The militarism of the countries of the little entente, of the Balkan states, of the two great powers, is a source of help for the great powers and at the same time a source of danger in the relations which these small states have with the great powers.

The sharpest of the world's antagonisms has been brewing for a long time, but it is unwaveringly following the line of development between the interests of British imperialism and the interests of the United States. During the past two years it has seemed as though a lasting agreement had been reached between the two great powers. But the semblance of permanency will remain only until the economic improvement of the North American Republic is consummated. The development of the home market. This development has now reached its highest point. The agrarian crisis, which has been the cause of the European fore-runner of the commercial and industrial crisis which are now ap-

proaching. The productive forces of America must seek a constantly widening outlet to the world market. The United States is being drawn into the trade of Great Britain, and the American merchant marine and military power are being drawn into the orbit of the British fleet. The period of agreement between England and America must develop into a period of conflict. The United States is now a two countries, and this, in turn, means the danger of a world-war of proportions yet unknown.

The antagonism between Japan and the United States is retaining its full degree of acrimony. The earthquake in Japan upset the balance of power between the two countries, but the exclusion of Japanese immigrants from the United States has lessened the acrimony of the character of a real struggle. In the event of a clash between the United States and Great Britain, Japanese militarism will undoubtedly be the victor.

At the present, the untold wealth of the bourgeoisie of the United States is being used in a great danger in the world situation. The temporary isolation of the United States, designed in order that its ill-gotten wealth should be accumulated in a safe place, North American capital requires expansion in all directions. One of these paths leads to the South. Presently on Mexico is bound to become a part of the United States. The United States is sure to be further intrusions into South America; European capital will be forced out and the complete subordination of the United States to the militarism of the United States will inevitably take on a more active and a more progressive character, not only in the United States, but also on the seas.

The progress of the revolutionary movement in the orient during the past two years has been a great danger to the imperialist domination of these colonies, more and more, the char-

acter of open militarist violence. The illusions of constitutionalism, the hopes of compromise with a rule of law, are being shattered. The subjects of India have cherished, are now vanishing. The parties of nationalist liberalism and petty bourgeois socialism, which were the subjects of the revolution, are now vanishing. The revolutionary movement is permeating the country more and more and is attracting constantly wider masses of the population. The firm, centralized, revolutionary party, to strengthen these movements and deal a death blow to British imperialism.

In remembered China the imperialist powers have introduced, thru troops of mercenaries, a regime of armed military occupation. The struggle of the Chinese people for unity and independence is at every step meeting with the opposition of the Japanese, the American and the British. The Chinese ambassador in Peking insisted on the punishment—for purposes of "teaching a lesson"—of the Chinese soldiers who were sent to the Chinese capital, a city where only white exploiters have the right to take the air. The hearts of the many millions of Chinese are beating with righteous anger. The Chinese people are now in a state of barely suppressed hatred. Here, as in India, a revolutionary organization is springing up as a result of bitter struggle and repression, which can be summoned to free China from foreign deposits and also from its own.

France, which has advanced the hopes of compromise with a rule of law, is now in a state of desperate attempts to multiply the sources of its imperialism, and to this end it is subjecting not only the Arab, but the Negroes, to the rule of capitalism. The military training of the colored peoples is designed not only to build up a reserve power for future wars, but it is hoped that the colored peoples will be able to also be a useful tool in the hands of the bourgeoisie for the crushing of the proletariat in Europe.

The progress of the revolutionary movement in the orient during the past two years has been a great danger to the imperialist domination of these colonies, more and more, the char-

acter of open militarist violence. The illusions of constitutionalism, the hopes of compromise with a rule of law, are being shattered. The subjects of India have cherished, are now vanishing. Here, as in India, a revolutionary organization is springing up as a result of bitter struggle and repression, which can be summoned to free China from foreign deposits and also from its own.

France, which has advanced the hopes of compromise with a rule of law, is now in a state of desperate attempts to multiply the sources of its imperialism, and to this end it is subjecting not only the Arab, but the Negroes, to the rule of capitalism. The military training of the colored peoples is designed not only to build up a reserve power for future wars, but it is hoped that the colored peoples will be able to also be a useful tool in the hands of the bourgeoisie for the crushing of the proletariat in Europe.

The progress of the revolutionary movement in the orient during the past two years has been a great danger to the imperialist domination of these colonies, more and more, the char-

acter of open militarist violence. The illusions of constitutionalism, the hopes of compromise with a rule of law, are being shattered. The subjects of India have cherished, are now vanishing. The parties of nationalist liberalism and petty bourgeois socialism, which were the subjects of the revolution, are now vanishing. The revolutionary movement is permeating the country more and more and is attracting constantly wider masses of the population. The firm, centralized, revolutionary party, to strengthen these movements and deal a death blow to British imperialism.

In remembered China the imperialist powers have introduced, thru troops of mercenaries, a regime of armed military occupation. The struggle of the Chinese people for unity and independence is at every step meeting with the opposition of the Japanese, the American and the British. The Chinese ambassador in Peking insisted on the punishment—for purposes of "teaching a lesson"—of the Chinese soldiers who were sent to the Chinese capital, a city where only white exploiters have the right to take the air. The hearts of the many millions of Chinese are beating with righteous anger. The Chinese people are now in a state of barely suppressed hatred. Here, as in India, a revolutionary organization is springing up as a result of bitter struggle and repression, which can be summoned to free China from foreign deposits and also from its own.
