

ASKS SMALL TO JUST SHEFF

AS WE SEE IT
By T. J. O'FLAHERTY.

THERE is a town in the United States called Boulder. To get nearer to our quarry, it is located in the State of Colorado. It might escape our attention and live happily ever after but for the fact that the attorney general, Ella Reeve Bloor, took it into her gray head to pay the place a visit with a view to planting some ideas there. It happens that Sheriff Robert Blum can see beyond the stormy petrel, Ella Reeve Bloor, the domicile occupied by William Kerr and Oscar Runion, a letter from Ella Reeve Bloor saying that she was coming to town to hold a meeting, the Sheriff hit the ceiling.

THE letter talks about trying to create some sympathy for the workers' cause and mentioned Soviet Russia. The sheriff's donkey was given the job of translating the letter into Russian, and it popped out that in Russian the word "sympathy" means "inferno" which is a hellfire word only used by the devil as described in the vernacular. It means "hell." In other words by a process of reasoning that any person should be proud of the thought that the conclusion that Comrade Bloor was coming to town to "raise hell."

THE local sheet in which this important news appeared under three rows of headlines justified its existence by adding editorial comment to the verbal blows dashed out by the sheriff. What good an editor unless he can be just as foolish as the man who does the strongest work for his masters. The editor learned that the conclusion of the letter was "red" candidates for the presidency of the United States has been dumping a lot of his literature into the place. The editor has a suspicion that Sheriff Blum has something up his sleeve in case the "reds" plan to capture Boulder. He may have something in his sleeve but he is safe to assume that he has nothing in his head, at least not inside.

WE are informed by The Federal News, official organ of the Chicago Federation of Labor, that the organized workers in this city are going to have the most impressive Labor day celebration in the history of the city. Visions of monster mass meetings and giant parades filled across our mental vision. We read on breathlessly. Perhaps Samuel Gompers might come to town to tell us again the old repeated but always welcome tale of how he intended to go to jail once in his life in a war against (Continued on page 3)

Canada Uses Injunctions Too
HAMILTON, Ontario, Aug. 29.—Judge Evans has issued an injunction restraining Motion Picture Projectionists' union, local 208, from using the open shop theaters, against which they are on strike.

SKY PILOT POCKETED
DOUGH OF KU KLUX
WOMEN AND VAGATES
(Special to the Daily Worker)
ELDORADO, Ill., Sept. 2.—Women of this town who are members of the Ku Klux Klan have presented a gift of money to the Rev. J. C. O'Connell, pastor of the Presbyterian Church. In acknowledging the gift of money, Irvine announced to the Klan women, "I feel most grateful for the gift. I have been working hard lately and am going to take a vacation."

The minister told the women, who signed themselves "women of the K. K. K.," "My dear women of the K. K. K. you and I are fighting for the same thing. We are fighting to keep America American. We are pocketing the money and started on his vacation."

NORTH DAKOTA IS FIRST TO PUT
THE WORKERS PARTY TICKET ON
BALLOT FOR THE FALL ELECTIONS
ALFRED KNUTSON, the field organizer of the Workers Party in North and South Dakota, reports that North Dakota is first to place Foster and Gitlow on the ballot.
The necessary 250 signatures to accomplish that in the state of North Dakota have been secured and an additional 200 to make the job absolutely secure are now being added by the petition circulators.
The Workers Party is therefore sure of a place on the ballot in North Dakota.
A state Farmer-Labor ticket will probably be nominated by the Farmer-Labor Party to be held at the Workers Party, Tuesday, Sept. 3rd, and this state ticket will be supported by the Workers Party.

Coal Miners! Demand Unemployment Action From All Illinois Labor

Statement by the Central Executive Committee of the Workers Party.

FOR many months now the miners of the state of Illinois have been denied the opportunity to earn a living. Throughout the state, scores of mines have closed down and left the miners to get a living as best they could, because the bosses could not make the profits for themselves at the present moment.

Tens of thousands of miners have not worked for months. In some places there has been no work for periods as long as six months and more.

This denial of the fundamental right to earn a living has brought misery and hardship to the miners and their families. Throughout the mining camps of the state, there is widespread suffering.

The unemployment among the miners of Illinois has reached that stage where they must have relief or go hungry and face even starvation.

Illinois labor meets in convention at Peoria on September 8th. Unemployment among the miners is the biggest problem which Illinois labor faces today.

The United Mine Workers of America is the backbone of the State Federation of Labor. By sending delegates from the miners' union who will fight for relief for the unemployed, Illinois labor can be forced to take action to save the miners from further hardship and suffering.

During the war, the government and coal mine owners insisted that the workers produce coal. The miners and labor generally should insist now that if the mine owners cannot or will not give them work, that they pay them wages.

The miners of Illinois should demand that the Illinois Federation of Labor go on record to demand of the state of Illinois immediate appropriations for relief of the coal miners.

The miners of Illinois should demand that the Illinois Federation of Labor go on record demanding that the mine owners pay wages to the miners when they cannot give them work.

The Chicago Federation of Labor and the officials of the State Federation of Labor have issued public statements endorsing the candidacy of LaFollette for the Presidency. The miners of Illinois should demand of these labor officials that they show them what there is in the LaFollette program which will bring relief for the unemployed coal miners, and should refuse to give their endorsement to a candidate who is unwilling to consider this fundamental problem of the mine workers of Illinois.

Miners, the State Federation of Labor Convention gives you the opportunity to voice your grievance. Do not permit the labor politicians who are climbing on the LaFollette bandwagon because they are hungry for jobs to silence your voices.

The Workers Party has made one of its most important demands in this political campaign that the government and the employers, if they cannot give work, shall pay wages to unemployed workers. The Workers Party candidates stand on that platform.

Make Illinois Labor take up that issue at Peoria. Make your slogan "Work or wages without work for the unemployed!"

Central Executive Committee,
WORKERS PARTY OF AMERICA,
William Z. Foster, Chairman.
C. E. Ruthenberg, Executive Secretary.

Is Governor Small Member of KKK?

States Attorney Delos Duty of Williamson County states that to the best of his belief not alone is General Carlos Black of the state militia a member of the Ku Klux Klan but that Governor Len Small also is a member of the hooded order.

What have you to say about this Mr. Small? You have secured the support of the labor forces of Illinois in your election campaign. You have also secured the support of LaFollette's army. Both are officially on record against the Klan.

The workers of Illinois and the miners in particular are anxious to know whether Delos Duty's suspicions are well grounded. Speak up Mr. Small!

ENGDAHL BRANDS DAWES' PRAISE OF KLAN AS HERRIN RIOT CAUSE

"On the hands of the 'Fascist' Charles Gates Dawes are the crimson stains of the blood of the dead killed in the Klan car at Herrin, Ill.," was the charge made yesterday at the Trade Union Educational League picnic by J. Louis Engdahl, editor of the DAILY WORKER and candidate for United States senator from Illinois on the Workers Party ticket.
"Only a few days after his eulogy at Augusta, Me., of the black order of the Ku Klux Klan, how was he now again in Williamson County, Dawes, the American Fascist leader, the head of the Minute Men of the Constitution is now the inspiration of the vile mob last Saturday."

NEGROES FIGHT CONCESSION TO RUBBER TRUST

See Librarian Privileges Stolen From Them

By ROBERT MINOR
(Staff Writer, Daily Worker)

NEW YORK, Sept. 2.—A bombshell of international political and financial intrigue was burst over the astonished heads of the delegates of the International Negro Convention, in session here, when the announcement was made from the platform that the government of the African Negro Republic of Liberia, completely ignoring former concessions to an American Negro Co-operative Company, has suddenly granted a big concession covering practically the same field to the Firestone Tire & Rubber Co., of Ohio, and that under admitted coercion of the French and British governments the Liberian state has been forced to accept the same field to the members of the Negro organization from landing on soil.

For several minutes after the announcement was read, the delegates of the Negro organization sat in dismayed silence.

Then pandemonium broke loose. Delegates from Negro communities of the Americas, the West Indies, Cuba and from American cities jumped to their feet to shout their anger and disgust.

A. G. G. Thomas, assistant secretary general of the Universal Negro Improvement Association, read to the assembly a large file of documents to establish the claim that the Negro association's plan to help develop the economic strength of the African Republic through a colonization and cooperative trading scheme had been officially recognized and accepted by the Liberian government.

One document read appears to be a formal grant to the Universal Negro Improvement Association of the right to establish a colony in Liberia.

HERRIN MINERS MARCH BEHIND KLAN VICTIM

(Special to the Daily Worker)
HERRIN, Ill., Sept. 2.—The miners behind one of their dead, Bud Allison, this morning, thirty-five cars filled to capacity followed the 250 members of Local Union No. 1248, United Mine Workers, who marched behind the hearse.

Officers of the Herrin local union, which conducted the funeral, acted as pallbearers.

W. H. Flynn, member of pit committee, Scott Delott, president, John Gwyn, financial secretary, Rev. Al. Bright, recording secretary, Joe Lynn, treasurer, William Rogers and Will Pierce, trustees. The men marched behind the banner of the local union.

Reverend John Mewer, a Presbyterian minister, who lives in town, he told me, who has not lined up with the Klan, performed the ceremony. He pleaded for all Herrin citizens to come into the church as a cure for bloodshed in Herrin.

When later I asked him how following the banner of preachers who allow the use of their churches as arsenals by Klansmen would bring peace, he was hard pressed for an answer. He said he believes Klansmen were raised and sent for the Klan car at Herrin, Ill. Bud Allison, until six weeks ago when he swam in as special deputy worked in mine A of the "Chicago" Williamson County Coal and Iron Company, as we returned from Allison's funeral, we passed the funeral of Green Dunham, Klansman. Eleven cars were in the funeral procession. Two filled with robed Klansmen. John Smith, the garage owner, was in the first car in his recall. Another of the Klansmen was in the car. Allison, last week found guilty of assault by Judge Brown. Doctor J. T. Black's hearing was continued until last Saturday.

Dawes Is Guilty!

CHARLES GATES DAWES, republican candidate for vice president, in his speech at Augusta, Maine, Saturday, August 23, declared that:

"A thousand members of the Ku Klux Klan without disguise—they were brave men—marched to the office of the sheriff of Williamson County to protest against the lawlessness in that section. IF A SECRET ORGANIZATION TO UPHOLD LAW AND ORDER IS JUSTIFIABLE ANYWHERE IN OUR COUNTRY, IT WAS JUSTIFIABLE THERE."

In those words, the Fascist candidate for vice president on the republican ticket, placed the stamp of his approval on the lawlessness of the Ku Klux Klan in Williamson County.

The "law and order" of the night shirts in Williamson County, is the "law and order" of the war of coal barons against the coal miners. That is why Vice Presidential Candidate Dawes is in favor of it.

It was with these words of approval of the rep. candidate for vice president, spoken on August 23, still ringing in their ears, that the Ku Klux Klan inaugurated, just one week later, on August 30, another reign of terror, in Williamson County.

Even the Dawes, mouthpiece, the Chicago Tribune, confesses in its issue of Sunday, August 31, that:

"Today's fight is directly attributed to the ending of the murder trial of Carl and Earl Shelton, brothers in court, this forenoon. The brothers were freed after State's Attorney Delos Duty, who praised the charges that they had shot to death Constable Caesar Gable, klansman, in a free-for-all fight between klansmen and flaming Circle men last February."

"Duty's action followed a dramatic appeal in the courtroom by the aged father of the slain constable, who arose and begged the judge to free the prisoners, because he was convinced they had not killed his son."

"Hostilities began when Sheriff Galligan, accompanied by Deputy Sheriff Allison, Fred Berger, Henry Walker, and John Shaffer, went to the garage, known as Klan headquarters here, to attach an automobile owned by Jack Skelcher, anti-klansman."

Followed by several men, said to be from St. Louis, the sheriff entered the garage. His story of what happened follows:

"Dewey Newbolt, a klansman, was seated in a chair leaning back against the wall. Several men were with him. A few words were exchanged and Newbolt jerked from his holster one of four guns he had strapped to his body and opened fire on us. Allison fell, shot thru the chest, and the other three deputies and I returned the fire."

"We retreated to the street followed by the klansmen, and the battle stretched out for some time. At the end of the fight, four klansmen and a checkup showed that the score stands 4 to 2—four dead klansmen, one dead deputy, and one dead bystander, Roland, who was not a klansman."

"Dunning, Reid, Willard, and Newbolt were members of the Klan, and from remarks they have made lately WE HAVE FEARED THIS OUTBREAK WAS COMING."

That is the kind of "law and order" that Dawes stands for; the kind of "law and order" that carries four guns in a peaceful working class community.

Out at his home in Evanston, "Hell on Marlin" Dawes sits cradling, evidently struck dumb with fear at the quick response, from the guns of the Williamson County Klansmen, to his speech one week before in Augusta, Maine.

THE DAILY WORKER sought to reach Mr. Dawes over the telephone. His manager, Kilkenny, responded.

"All the newspapers have been trying to get Mr. Dawes to make a statement on the situation at Herrin," said Mr. Kilkenny. "Mr. Dawes has refused to make any statement to any newspaper."

The silence of Mr. Dawes is proof that he feels the guilt for the spilling of blood in Williamson County.

Let the workers remember the words of "Fascist" Dawes, fearful of the growth of militancy among the Southern Illinois coal miners, when he said:

"If a secret organization to uphold law and order is justifiable anywhere in our country, it is justifiable there (Williamson County)."

Dawes stands back of the Klan.
Dawes is guilty of the crimes of the Klan.

INTERNATIONAL DELEGATES WILL REPORT TO SPECIAL MEETING OF CHICAGO YOUNG WORKERS LEAGUE

All branch and other meetings of the Young Workers League of Chicago for Thursday evening, Sept. 4, have been called off. Instead there will take place a general membership meeting where the delegates to the 4th congress of the Y. C. W. L. will render their reports on the decisions and resolutions arrived at there, and the immediate problems of the Y. W. L. in the light of these decisions.

Comrade Carlsons, who has been working for the E. C. of the Y. C. W. L. in Europe for the last 18 months, will be the chief reporter.

The decisions of the last congress are of particular importance to the work that must be done here. More attention was devoted to the Y. W. L. than was ever the case hitherto at an international congress. Furthermore, the valuable experiences gained in nucleus work in Germany, Britain and Czechoslovakia; the trade union-economic experiences of the French League; the Anti-militarist experience in the Ruhr, in Bulgaria, etc., make possible a clearer and more concrete line of action in all of these fields.

Every member of the Y. W. L. of this age subgroup must attend this meeting. Admission will be by presentation of membership card only. Workers Party members are also invited to attend, but must show their party cards.
The meeting will take place at 722 Blue Island Ave. at 8 p. m.

KLAN LEAVES DEATH TRAIL AT HERRIN, ILL.

Murderers Backed by "Protestant Churches"

(Special to the DAILY WORKER)
HERRIN, Ill., Sept. 2.—Removal of Sheriff George Galligan as a means to peace in Williamson County will be asked of Gov. Len Small, by a committee representing the county ministers' association and other citizens. It was decided this afternoon after the same committee had called on the county board to urge that body to use its influence to bring about the removal.

The committee is headed by Rev. I. C. Smith, of the First Baptist church. It is charged the Protestant churches are in alliance with the Ku Klux Klan.

The governor is the only person empowered to remove a sheriff. If it is now charged the governor is also a Klansman.

The Christian church here, despite charges, has been used as an arsenal to store ammunition for the Klan. It is rumored that the police closed it out of ammunition Saturday night.

(Special to the Daily Worker)
HERRIN, Ill., Sept. 2.—Six men dead and several wounded. This is the toll of the latest outrage perpetrated by the Ku Klux Klan in what the Illinois Chamber of Commerce has pleased to call "bloody Williamson County."

Sheriff Galligan and his deputies were served with warrants charging them with murders of three persons killed last Saturday. A warrant is issued for the arrest of State's Attorney Delos Duty, charging him with conspiracy in the murders.

Doctor T. H. Black, head of the Herrin Hospital, is released on a \$15,000 bond. The Klan-controlled city administration charges him with being an anti-Klan sympathizer.

Thirty automobile loads of ammunition were unloaded at the rear of the city hall last night. All efforts to trace the autos were unsuccessful. Police and firemen were not giving out any information. Fear of whistling bullets scared them.

Started in 1922.
The people are in deadly fear of the next outbreak. Since the 1922 riot at the race track, during which several strikebreakers were killed, the county is divided into warring factions, one the Klan faction backed by the police and the Protestant churches, the other friendly to the miners' union.

Adl. Gen. Cadogan Black announced that he was withdrawing the request for Sheriff Galligan. State's Attorney Duty, charges Gen. Black with being a member of the Klan. People are beginning to think that Governor Len Small is also sympathetic to the hooded order. Not because Small believes in the purpose of the Klan, but for reasons of political expediency.

The annual anti-lynch carnival started last Saturday after the Shelton brothers were acquitted of the charge of murdering Constable Gable, a Klan member, and the Police and the Klan. The constable's death occurred on February 8.

Klan Killed Skelcher.
After the acquittal, a deputy sheriff, who had been a judge car to Jack Skelcher, another deputy, to hunt Glen Young in the Ohio bottoms last February, went to Smith's garage to recover his car. Smith is a prominent Klansman. Skelcher was murdered by the Klan and the Dodge carried bullet marks.

The Dodge was stored in Smith's garage by Klansmen after they had shot and killed Skelcher a few months ago. The Dodge was taken to the garage and the Dodge carried bullet marks.

PROGRESSIVES DEMAND ACTION FROM U. M. W. A.

Militant Miners' State Gets Endorsements

By KARL REEVE
(Staff Writer, Daily Worker)

CHRISTOPHER, Ill., Aug. 29.—Illinois will be swept by a series of mass meetings of the miners protesting against unemployment, this fall, Arley Staples, candidate for International vice-president of the United Mine Workers in the December elections, told the DAILY WORKER today.

"The miners' struggle in Illinois, which over 40,000 have been out of work for many months, and over the entire country, are already passing resolutions demanding more aggressive action on the part of the official family against unemployment," Staples said. "I look for thousands of unemployed miners to form special unemployment councils, and to take action of the bosses that the industry take care of the unemployed workers."

Unemployment Grows

"Every month that goes by means that the industry is becoming more acute. In the large cities factories are closing down daily. There is less demand for coal. Unemployment grows more and more. It will not get better this winter, but worse. The miners in southern Illinois realize that the worst period of unemployment in our history is turning out to be a period of prosperity, but into a period when the entire capitalist economic structure is being shaken. They are waking up to the fact that the only way to completely solve their problems is to take over the mines and run them for the use of the working class and not for the profit of the capitalists, as is done at present."

Farrington Ide

"While the miners are starving in southern Illinois, while the coal miners are attempting to form a union after starving the miners by closing down the mines, Frank Farrington and the entire reactionary officialdom of the miners' union is doing nothing to relieve the situation."

I am running for International vice president on the program of the militant miners. The militant rank and file miners demand that a constituent of all local unions on unemployment be called by the United Mine Workers' officials. They demand that a strike be immediately started to organize the unemployed coal miners of the south. They demand that the shorter work day be instituted as a solution for unemployment. They demand that the coal operators and the government pay unemployment benefits."

The progressive miners of this country insist that the miners' union take immediate action to solve unemployment and institute immediate relief, and organized measures for relief of the suffering unemployed miners."

Vote for Progressives

"There are two ways the rank and file miners can make their voice heard in Illinois. One is to institute a strike to force a convention on Sept. 3 to fight for this program. Another is to elect officers in the December primary, who are pledged to this progressive program. Staples declares that the miners have arisen in protest against inaction of the officials before and they are planning to do it again. He referred to the time when Farrington mismanaged the affairs of the Illinois miners in the 1922 strike."

The Fire Christopher local union

No. 1421, 2565, 2168, 232, 2613, and many other locals through the state, demanded of President Staples the immediate removal of Frank Farrington as president of District 12. Farrington, who had been playing for a separate district agreement with the coal operators for the Illinois miners, because of opposition to his policies among the miners, took a right about face at the reconvened People's convention."

Indoed in Nova Scotia

Staples has been nominated by all the Christopher locals. He has just received the following letter from New Waterford, Nova Scotia: "Dear Sir and Brother—I take great pleasure in informing you of the fact that the local union, No. 427, No. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, PRESIDENTIAL CANDIDATES ON CAPITALIST TICKETS UNLOAD CARGO OF HOKUM ON LABOR DAY

MORGAN'S ATTORNEY

JOHN W. DAVIS, democratic candidate for president, arrived in Chicago today, on his way to take a job at the agricultural vote. He held out his hat for the labor vote yesterday in his Labor Day speech, in which he tagged himself a "liberal labor" candidate.

He heartily supported the anti-child labor amendment, and denounced the E. C. Cummings law. He favored voluntary wage agreements and denounced the use of injunctions in strikes.

Had these promises been incorporated in the democratic party platform, Gompers might now be boosting the donkey instead of the Follie ticket.

MORGAN'S PRESIDENT

CALVIN COOLIDGE, strikebreaker president, also got on labor's bandwagon. Speaking to a collection of labor fakers, whose records are so black that even Sam Gompers would hesitate to shake hands with them in public, Coolidge declared that the workers had a right to live as long as they worked hard and otherwise conducted themselves. He said the republican party put soup in the worker's dinner pail and oil in his lamp. He urged the labor fakers to "stick to the American brand of government, the American brand of equality and the American brand of wages."

The labor fakers promised not to accept any foreign ideas unless they came from the League of Nations, Mr. Bakewell, Angelo Firpo or the Prince of Wales. Their prices for the next four years would be higher than formerly owing to the rise in the cost of living and their growing taste for luxuries. Samuel Gompers could not get out of the line to LaFollette, they formed the president. They were thankful to the old plan for deserting the two old parties, as his absence makes the bribe grow fonder.

Prominent labor fakers missing from the delegation were "Big Tim" Murphy and Robert P. Brindell. Their duties in Leavenworth and Sing Sing were too pressing.

ANYBODY'S MAN

SENATOR ROBERT M. LAFOLETTE spoke to an invisible audience on Labor Day. What he said was hard on the ears and still harder in the brain. He pictured the two old parties the abject slaves of wealth. But he has hopes in the people. "I believe," he said, "that if the people can once regain control of the machinery of government we can stem the tide toward economic absolutism."

"Fight!" Bob denied that he was a radical, said that the Dawes Plan was a Morgan Plan and insisted that he would rescue the people from Wall Street. If they would allow him.

In the meantime the other organ of Samuel Gompers is coming off the ground, an editorial denouncing the trust-busting philosophy of LaFollette and demanding the repeal of Bob's pet anti-trust Sherman act.

of hooded cowards. These efforts are now directed toward the elimination of the miners' union in the interests of the open shop coal operators."

Engdahl, amidst fanatical applause, called upon the assembled miners to join the Communist movement and to work in the revolutionary ranks of this country for the establishment of a Soviet republic. Max Eastman, editor of the Young Worker, also spoke on the significance of Mobilization Day, Sept. 12. Despite the rain, a good crowd gathered in the streets of Chicago. U. E. L. The spirits of the young in particular were far from being dampened.

Edwards Speaks for T. U. E. L.

John Edwards, recently returned from Soviet Russia, addressed the last meeting of the Chicago Young Communist League of Chicago on the Communist youth movements in France and Germany, and the lessons we should learn from them in developing our youth movement. Edwards attended the Third World Congress of the Young Communist International in Moscow.

In his speech he particularly stressed the fact that these countries centered their intensive organization work on the youth of the working class.

He portrayed the life of the youth of Russia. They work only six hours a day. They attend the factory schools or colleges. Only workers attend the colleges in Russia.

Sports and games play a big role in the Communist youth movements abroad and in Russia, too. The Young Communist International of Russia has one million and a half members.

Resort for Workers' Sports. Lenin, once a restricted place, are resort for the nobility and wealthy merchants of Russia (of course it was not known as Leninville then), has been set aside for your sport and recreation. The magnificent houses and hotels are used for schools.

Every six months workers receive a two weeks' vacation in Russia, and they are off to Leninville to join in the sports.

In no country does one see so much healthy looking youth as in Russia. The kids are "imagine thousands of robust, laughing, joyous sturdy youths headed for Leninville in hundreds of boats beached on the banks and you will have the picture that greeted me yesterday as I stood on the banks of Leninville with revolutionists from other countries who spent a day there viewing

CHICAGO'S KOSHER BUTCHERS STRIKE FOR PAY INCREASE

Chicago kosher butchers went on strike yesterday, demanding an increase in salary and a shorter work day. The increase will bring their salaries up to \$5 and their workday down one-half hour each day. The strike call was broadcasted to the headquarters of the butchers' union here, and all union butchers have answered the call and are out on strike.

Ku Klux Klan Leaves Trail of Death in Williamson County

(Continued from page 1)

er: Green Dunning, reputed Klansman, and Dewey Newbold, reputed Klansman.

The Klan and Anti-Klan. The Herin officialdom is with the Klan. The county authorities are on the other side.

Chief of Police, Matt Walker, an appointee of Mayor Magare Anderson, stated that he would not be surprised if fifty people were arrested by night fall.

The police chief, who plainly showed the Klan sympathies, denounced the sheriff's critics and threatened to fall every deputy in Benton and Marion.

According to eye witnesses of Saturday's battle, the Klansmen were down on Smith's garage in an Essex car, heavily armed, and started the shooting.

It was rumored that Sheriff Galligan intends closing up the garage on the ground that it is a public nuisance and Klan hangout.

The undertaking establishment where the bodies of the anti-Klan victims of last Saturday's battle are lying is in the hands of women and children, who are who come to pay their last respects to the dead. The morgue where the Klansmen are lying, is practically deserted.

Another attempt to oust Sheriff Galligan from office is to be made today, the county ministers' association announced, following a session at which Rev. I. E. Lee was appointed to call on the county board at its meeting this afternoon and ask that they use its influence to force the sheriff to relinquish his position.

The president of the board, is Samuel B. Brown, and the county minister is closely associated with S. Glenn Young, Williamson county's imported dry rider.

Several previous attempts to remove Galligan have proved fruitless.

"Make War on War!" Labor's Slogan for "Goose-Step Day!"

By J. LOUIS ENGDAHL.

TODAY, the militarists of the nation speed up their efforts to arouse the masses in support of their rapidly approaching "Goose Step Day," Sept. 12.

Secretary of War John W. Weeks, pal of General Leonard Wood in helping to maintain American imperialism's sway over Wall Street's growing colonial possessions, especially in the Philippines, is in the front rank of the mobilizers for "Defense Day." That is his job.

Secretary of War Weeks is pulling all the old, familiar tricks, that the militarists have always employed, to make the game of human slaughter, for the protection of the world-wide interests of capitalism, attractive to the youth of the nation.

Secretary of War Weeks looks over the statistics and finds that the mills, the mines and the factories, while they have been producing huge profits for the great trusts, they have at the same time turned out a population of mentally subnormal and physically unfit candidates for the murder machines of war.

For the masters of bread need strong, healthy, alert young men to fight the wars so that they can fight them successfully against the strong, healthy, robust, alert young men of foreign imperialisms, whether of Great Britain, France or Japan.

Secretary of War Weeks laments, for the purposes of war, that "about one-half of our population is subnormal" and that the country suffers annually a loss of \$1,500,000,000 by preventable illness and curable physical defects of its citizens."

Secretary of War Weeks doesn't worry about developing a nation of inferior, weak men, women and children, for the purposes of peace, for the building a better civilization. He states his fears openly and frankly, that this population with its 50 per cent subnormals "places the nation in the position of having to defend itself with one arm tied behind its back," which, "is bad." Bad for Wall Street and its gold.

Weeks has no cure for this problem. He does not urge that the standard of living be raised. He does not demand that the children be taken out of the factories. He does not seek a shortening of the work-day, or the bettering of working and housing conditions.

All that this pitiful puppet of the Wall Street war-makers has to offer is to suggest that, "the medical men in each community, as a patriotic service, will issue friendly advice to their fellow citizens on Sept. 12, "Defense Day."

This is a confession that the wages of the workers will not permit them to have a doctor's care and advice when needed, that the workers must depend upon the charity of doctors on one day, six years after the great war ended, in order that they might prepare their bodies to become cannon fodder for the next war.

"It may be too late," confesses Weeks, "for any constructive action on a nation-wide scale to eradicate the physical weakness of the present generation, but it is certainly not too late to prevent the oncoming generation from developing physical defects."

Thus, evidently hopeless is the patriotism of the doctors. Weeks pleads that "fathers and mothers will have the physical condition of their children investigated," but he did not add, in order that they be better fertilizer for the blood-crimsed soil of some foreign land in the next great war.

In the last great capitalist war the dead alone totalled nearly 8,000,000 young men; to be exact just 7,975,000. Including the wounded the casualties went up to "at least 35,000,000" says The Chicago Daily News Almanac and Year-Book, for 1919. And the only victory was the triumph of the profiteering dollars of J. Pierpont Morgan.

Thus the issue for "Goose-Step Day, Sept. 12, 1924," in the United States becomes quite clear. Will the masses, in the workshops and on the farms, help the big capitalists, the war-makers prepare for the next war? Or will the masses of workers and farmers prepare to make war on the next capitalist war?

William Howard Taft, now Chief Justice of the United States Supreme Court, was secretary of war in the cabinet of President Roosevelt, more than two decades ago. Taft and Roosevelt did what they could to put budding American militarism on its feet.

FAMINE TALES IN KEPT PRESS SHOWN FALSE

Disprove Lies of "Trib" and Others

By M. A. SKROMNY.

The capitalist press, especially the Tribune, is continuing to feed its readers with horrible Russian famine stories. A few days ago the Russian Cheka had shot in the Chicago Tribune a hungry mob. Now the same yellow sheet has shown an "exclusive" map of the famine district which claims to show that the famine "in the land of Red menace" is "as severe as that in 1921."

When we remind ourselves that the same newspaper in 1921 published an "exclusive" photograph of the Bolsheviks actually shooting down a hungry mob (which happened to be the photograph of the July uprising of 1917 showing the Bolshevik troops), we don't wonder much about the "proofs" of this paper.

Real Acts of 1921. When the Soviet government in 1921 appealed to the world for help, the starving because it was unable to save them without aid from abroad, the same press called it "Bolshevik lies." Only after the world began to send money to the Soviet government was forced to spend in this country several millions of dollars for food before the Hoover administration agreed to help. They actually permitted thousands of people to die before they did anything to help.

Now, when the Soviet government states that it is able to take care of the famine districts without foreign aid, they are so anxiously advertising the "great" famine. Why are they so anxiously advertising the "great" famine. Why are they so good-hearted? What happened? Since 1921 the Soviet government has been recognized by many important states. The Hughes' policy of splendid isolation in the Russian affairs has proven a failure. It contributed much to the unemployment in this country, to the lessening of exports and the general depression of the world. It was an aid to the British, German and other business interests as against the interests of Uncle Sam. Many countries, including the arch enemy, France, are now on the verge of recognizing the Soviet government.

Farmers Aimed At. The farmers in this country as well as the workers are rebelling against the well "rotted" old parties. In order to win their votes by raising artificially grain prices, and at the same time prevent, if possible, further recognition of the Soviet government, this campaign is being conducted. The famine was brought about, in the cable in which the "killings of the Hungry" are reported there is a paragraph which tells the cat of the bag. It states that "M. Leshava (Commissioner of Interior Trade) reports that the crop failure has affected two-thirds of the grain-grow-

DEVER PLAYING TWO POMIES IN DEFENSE DAY PROCLAMATION

In the hopes that he would continue to maintain some of his foreign vote support, Mayor Dever is trying to straddle both horses by issuing a proclamation to the people of Chicago to observe Defense Day, but at the same time deploring the situation of the water spirit in the minds of the populace.

In the proclamation he pointed out that he doesn't "believe in emphasizing at this time preparation for war, yet I have no sympathy with the sentimental pacifism which would leave this nation helpless."

Therefore, proclamations Mayor Dever, we shall observe Defense Day nevertheless. All the big corporations—non-unionized—will have contributed to the employees of the line of march and in the audience listening to patriotic air—note.

log districts in Russia and that exports must be radically curtailed if Russia intends to feed itself this coming winter. This should prove well news to American farmers, whom the Bolsheviks understood in Europe years ago.

This is the main reason why there is such a "terrible" famine in Russia. It should prove welcome news to the "Bolshevik" troops. It should prove welcome to the grain markets and make a few million around here. The farmer may forget his troubles at least until after election.

But what is the actual state of affairs in Russia?

Russ Situation Favorable. Comrade Rykov, chairman of the Soviet Famine Commission, reported the actual situation recently at a Moscow meeting. It is much more favorable than expected previously. According to the latest statistics, together with the 150 million pounds of grain left over from last year the government will have on its hands 2,700 million pounds. After covering the needs of the population, 75 million pounds will be exported. Besides the grain left over from last year, 35 million gold rubles have been appropriated to help the famine districts and all labor and peasant organizations of the "great" famine. Why are they so anxious to advertise the "great" famine. Why are they so good-hearted? What happened?

Since 1921 the Soviet government has been recognized by many important states. The Hughes' policy of splendid isolation in the Russian affairs has proven a failure. HERRIN MINE, JERS, JOBLESS, GO TO KU KLUX TRIAL

Thirty Mines Shut Down in Sub-District

Editor's Note: This article by Karl Reuve was written before the renewal of civil war in Herrin last Saturday.

By KARL REUVE.
(Staff Writer, Daily Worker)

HERRIN, Ill., Sept. 2.—Thirty mines in the entire Herrin sub-district, the second largest sub-district in Illinois, are completely shut down. Only three are working at all, and none of these are working full time. This was the statement made at the offices of the United Mine Workers in Herrin.

3,000 Are Jobless. Seven mines are completely closed in Herrin, and three mines are working part time. Over 2,000 miners in this town are idling the streets, out of work since Nov. 1, 2 and 3 of these are working full time. This was the statement made at the offices of the United Mine Workers in Herrin.

Many of the unemployed miners, with nothing else to do, are attending the trial of Carl Nielson and Walter Winsted, members of the Ku Klux Klan. They are being tried for the shooting of a black miner, John Fitzpatrick, who was killed during a strike in the Herrin coal mine. The trial is being held in the town of Herrin, which is the center of the coal-mining industry in this part of Illinois.

When Arley Staples and myself entered the courtroom, we were greeted by a group of white men, some of whom were members of the Ku Klux Klan. The atmosphere was tense and hostile. The trial was being held in a small, crowded courtroom, and the proceedings were being watched by a large number of people.

Bowling seemed unwilling to allow foreigners to serve on the jury. Carl Barbala was removed from the jury. He had been declared to have no opinion on the case. Dennis Craig was also removed by the Klan lawyer. Only the white men remained on the jury. The trial was a farce, and the outcome was a foregone conclusion.

Mystery in Court Proceedings. Bowling suddenly asked for a private conference and the judge and the two lawyers went into another room. They returned after a few minutes, and the trial resumed. The proceedings were a farce, and the outcome was a foregone conclusion.

A. T. GRIGGS MANUFACTURING CO.,
OF DETROIT, MICH., IS A DEVIL'S
OWN HELL-HOLE, WORKER WRITES

A human voice out of the pit of a dungeon known as the A. T. Briggs Manufacturing Company, in Detroit, Michigan, reached the DAILY WORKER today. In this dangerous automobile bodies are made for the Hudson and Essex cars.

Those who have visited automobile manufacturing plants will recall, as they read this letter, rows and rows of human flesh lined up close to each other, like sardines in a can. The workers are crowded together, and the atmosphere is oppressive. The workers are treated like slaves, and their lives are a constant struggle for survival.

As rise to frighten the workers. I know something was coming. And in hundreds of ways they were trying to keep us from knowing. They were trying to keep us from knowing the truth about the company and the conditions of work. They were trying to keep us from knowing the truth about the company and the conditions of work.

Discharge is a familiar word. Men are discharged on the flimsiest pretexts. The company is always looking for a way to get rid of the workers. They are treated like slaves, and their lives are a constant struggle for survival.

AS WE SEE IT

By T. J. O'FLAHERTY.

(Continued from Page 1.)
The injunction. Perhaps John H. Walker might use a dozen handkerchiefs, telling of the sins how he felt completely over his desire to go out and fight. But he is convulsed rapidly.

YOU may not read such a report in today's paper. The labor leaders have not taken the organized workers to Sleepy Hollow, in the physical sense. It would not be so had it been so. But the policy I, to be dropped in preference for the Rip Van Winkle method.

SO if you read something like the following in the columns of the capitalist press this morning you need not be surprised, because you are forewarned. "One of the most remarkable labor celebrations ever held in the vicinity of the Windy City, took place yesterday in Sleepy Hollow, N.Y., at the conference of industrial leaders on September 12, the day designated by the War Department to mobilize the nation's resources."

There was a dead silence. Suddenly a heavy sobbing was heard, but the sleepers did not move. The reporter was told by the chairman of the board and found John H. Walker, John Fitzpatrick and Victor Olander sitting near a brook crying furiously into the water.

WALKING up and down nearby was a tall old man who looked like a giant. He was wearing a suit and tie, and he was looking at the workers with a stern expression. He was the chairman of the board, and he was the one who was in charge of the trial.

THE White House is decorated in honor of the visit of the Prince of Wales. All in all the prince had a good time. One would never suspect that not so very long afterwards our people would be watching the terrible "Huna" and showing German princes in uniform, not being occupied by Alice Roosevelt but attempting to rape the sleeping prince. This was the story of the prince's visit to the United States.

SUDDENLY, John Fitzpatrick jumped up and mounting a boulder, took off his hat and began to shout. He was the one who was in charge of the trial, and he was the one who was in charge of the trial.

But grizzled American admiral took their orders from Wall Street via Washington, will not let down their efforts to elevate the guns on the American navy, that will send the Royal Navy to Dave Jones' locker. Behind the smiles of princes and behind the smiles of the world's great capitalists and some day they will fight, when diplomacy can no longer settle the matter. The guns will boom and the new smiling prince will become the leering roar. But the pawns will be the workers, unless they wake up in time. The diplomats and capitalists will not go where the bullets fly.

Endless Line of Jobless. The men in line are a bad looking bunch. Broken down in body and spirit, hungry, sleeping in alleys, ragged and diseased they stand there waiting.

The A. T. Briggs Manufacturing Company is next to the largest body making firm in Detroit. They employ 15,000 men. They have four large plants and run night shifts. The plant runs 12 hours a day and will soon be broken up by the Detroit as the Devil's Hell Hole. The doctors call it "The Home of Blood Poisoning." It is horribly unsanitary and hundreds of ways they were trying to keep us from knowing the truth about the company and the conditions of work.

I hope the day is not far off when the workers will be free from this slavery to the money kings. The dictatorship of the Proletariat is the workers' only hope for a better world. Enrolled find a subscription for four months and \$2.00.

EIGHT AND NINTH CONGRESSIONAL DISTRICTS LEAD

Young Workers League Members on Job

Under the impetus of the drive launched at the recent Chicago Young Workers League meeting, party workers are sending in more enthusiastic reports on signatures obtained in the various congressional districts. A review of the signatures obtained and the work done in the Eighth and Ninth congressional districts, in which George Maurer and Jack W. Johnson are the candidates, show real progress, with indications that these will be the first to go over the top in placing Workers Party candidates on the ballot.

Other districts are also going well, and with a little added speed from most of the members, Chicago expects to place all its candidates on the ballot. The Young Workers League members have begun to organize their forces to obtain signatures and expect to turn in a large number within the next few months.

What Have Candidates Done? The local issue is a short statement on the "Lives and Work" of the Workers Party candidates, to be used at the conference of industrial leaders on September 12, the day designated by the War Department to mobilize the nation's resources. The candidates are expected to be placed on the ballot.

Party workers who have gone out to get signatures invariably relate that it is easy to secure them. One good rule to follow is to carry copies of the DAILY WORKER and other campaign literature for distribution.

Bring It Petitions. Real hustling is needed from every member, as there are only two weeks left in which to get the required number of signatures in the various districts. Every branch must get busy at once. Every member in the branch must be mobilized into quick participation in this work.

Earn Your Merit Stamp. Earn your merit stamp for getting a new subscriber to the DAILY WORKER and a new member into the party. Merit stamps are different from any other stamps issued by our party. They must be earned by work.

Party Getting on Ballot. Reports coming in from all the states in which the Workers Party is trying to get its candidates on the ballot in the coming elections are very encouraging. Many have already reported success. The Workers Party has the distinguished honor in this nation of being the only party to have a candidate on the ballot in every state.

TEAPOT DOME THIEF WINS FIRST VICTORY IN GASOLINE BATTLE

WASHINGTON, Sept. 2.—Harry F. Sinclair, lessee of the Teapot Dome oil reserve, scored for the first time today in the litigation growing out of the Senate investigation of the naval oil leases.

Justice Hoehling of the District of Columbia Superior Court, granted Sinclair a special appeal from the court's order overruling his demurrer to an indictment charging him with conspiracy to defraud the United States.

The contempt charges grew out of Sinclair's refusal to answer certain questions propounded by the Senate Public Lands Committee during the oil inquiry.

ILLINOIS WINNING TOWN IS PICTURE OF DILAPIDATION

By KARL REUVE.
(Staff Writer, Daily Worker)

SESSER, Ill., Sept. 2.—The main street of Sesser is dilapidated and forlorn. Most of the stores have closed their doors, the windows are broken and in some of the houses the stores remaining open have only a few dollars' worth of stock on hand. The Sesser Coal Company mine No. 16, usually employing 350 men, has been shut down for seven months, and the Southern Gem Coal Company, employing 170 men, is not only closed, but it owes the men over \$100,000 on their last December pay roll.

Stores Die Off. The Caesar Bioti grocery and meat market, after extending credit to the unemployed miners to the amount of \$5,000, has closed its doors and given up the ghost. J. H. Isom, selling guns and merchandise, is expected to close soon, having given to the hole over \$5,000. Allen & Louke, formerly one of the biggest stores in Sesser, will close soon, having lost already \$4,000. The Page Drug Company, formally declared bankrupt, has closed its doors.

Many of those who left for the large cities to find work have returned because of the lack of work. The town is a picture of desolation and despair. The people are suffering from the effects of the economic crisis, and the town is a picture of dilapidation.

AL. SMITH, NEW YORK GOVERNOR, CHAIRS PRINCE

NEW YORK, Sept. 2.—Governor Alfred E. Smith, who was supported in his bid for the democratic nomination for the presidency by the Irish nationalist organizations and their rabid anti-British press, broadcast a welcome to His Royal Highness, the Prince of Wales, who is on board the Berengaria on his way to New York. Governor Smith, the "Friend of Ireland," delivered himself as follows: "His Royal Highness, the Prince of Wales, on board the steamship Berengaria."

"I have the honor to express the greetings and extend a warm welcome on behalf of the people of the state of New York on the occasion of the arrival of your Royal Highness in our harbor."

"This greeting is sent to you thru the courtesy of the United States army, one of whose airplanes is circling over your vessel."

"ALFRED E. SMITH."

Take a Vote in Your Shop

HOW do the workers in your shop stand in this presidential election campaign? How many of your shop mates are still so backward that they accept the leadership of Coolidge and Davis?

How many of your fellow workers have been fooled by the specious pleas of LaFollette and adopt this middle-class saviour? And, above all, how many workers are there in your shop who understand that the working class must elect its own party, its own policy, and its own candidate—and who therefore stand for William Z. Foster for president?

Take a vote in your shop. Send it in to the DAILY WORKER. We will compile it along with all the other shop votes and give you a picture of how the workers are thinking about the election issues and candidates.

No one in our organization will be subjected to heresy-hunting, if he decides for this or that labor ticket. This document lacks but little to add to, it is such a rude picture of work of central hesitation and uncertainty, that its poisonous tendency is self-evident, even to the least informed. The present Czechoslovak "Marxian" Federation is equally insignificant in numbers as it is un-Marxian in its attitude. But the proclamation is naturally meant as a directive to the Czechoslovak unions, and a large number of those who let themselves be misled by this feigned liberality and shielding of the under-

supplication for a heavy LaFollette vote by pointing out its significance for recognition of Soviet Russia shall, sooner or later, expect some more "wrecking" of their illusions. This time it will be the bursting of the bubble of "Marxism" of those ad-

dressing them in the name of the Czechoslovak Marxian Federation. To those that know the meaning of marxism it will be sufficient to draw proper conclusions from the rank, un-marxian advice, even tho it's covered up

by hypocritical liberality and concern for recognition of Soviet Russia.

REACTION RULES NEW YORK LABOR ANNUAL MEETING

Coolidge Supporters Put Up Fight for Cal

(Special to the Daily Worker.)
SCHEENECTADY, N. Y., Sept. 2.—Reaction ruled supreme in the third day's sessions of the convention of the New York State Federation of Labor. Hours were spent by various reactionaries in speaking about the union label and about Americanism, but Delegate Richard Verhaeghe was refused permission to speak on the amalgamation resolution.
Resolutions calling for amalgamation, a labor party, the organization of the unemployed, were all defeated without any discussion being permitted. A resolution for the recognition of Soviet Russia was not even reported out of committee. The reactionary officials were re-elected with out effective opposition. Holland, leading the list as president of the state federation.
The LaFollette-Wheeler ticket was endorsed, also the longshoremen and the marine workers made a fight for Coolidge.

Washington Typos in Compromise on Original Demands

(By Federated Press.)
WASHINGTON, Sept. 2.—A date rate of \$1.05 per hour has been offered by the committee representing the members of the International Typographical union employed in the government printing office here, as a compromise between their original demand for \$1.10 per hour and the sliding scale proposed by public printer Carter. The offer made by Carter ranged from 90c for compositors on machines to \$1.15 for the best skilled work. Negotiations are expected to continue for some time. Carter is affiliated with the socialist progressive element in the I. T. U., while the majority of the membership here belongs to the "Wharfedale" element, as indicated by their heavy majorities in the recent election.

SLOGAN OF "LENINISM TO THE MASSES" SPURS ON PUBLISHING IN "ILLITERATE" RED RUSSIA

(Federated Press Staff Correspondent)
By ANISE.
The Gosizdat, or Government Publishing House, born in the year of the war with Poland, is celebrating its fifth anniversary with an exposition which shows what the country's development has been in the past five years. Not only has the output of books, in this one publishing house alone reached in 1923 a total equal to the three previous past years combined, but the type, subjects, and quality of books have undergone an even more striking change.

Beginning Was Poor.
The Gosizdat publications of 1919 were chiefly posters and pamphlets calling to defense against the Poles and the bourgeoisie. Monotoned, on poor paper, with alphabet, hardly work they presented a wretched appearance. There were millions of them, an equivalent of 80 million pamphlets of 40 pages each. But the scientific section was only a germ. In the volumes. Social-economic and liberal arts sections were equally bad. Followed the year of fight against disorganization. The external appearance of the books was much the same. But the themes varied. The realm of applied science began to be formulated. In literature and art large editions are issued of standard classics for the people, including the first Soviet edition of Pushkin's works.

Famine Brings Scientific Works.
Then a sudden break came with 1921, the year of the famine and the new economic policy. From popular applied science the Gosizdat goes over to serious scientific works. The type of books grows solid and better printed, for now the bookshelves are filled and materials arrive from abroad in great numbers. The stage demanding the periodic issuance of bibliography.

Color and beauty came in 1922, revolutionary songs, propaganda in art, children's books. Then in 1923, after the second harvest comes the flood of school textbooks. Large numbers of scientific books, in many branches, vast quantities of books for popular reading rooms and village schools. In the literary art begin to appear modern Russian and foreign writers. Fine printing and illustrations, new journals of many specialties.

Now the slogan goes out: Leninism to the Masses. Not only are the existing subjects deepened and popularized continuously, but all sorts of new material appear. For amateur dramatic clubs, workmen's organizations, boys and girls club movements, with material skillfully arranged for educational effect. Three and four color printing and mezzotints illumine the well printed books of which last year 223 million "titles" were printed, equal to 223 million full sized booklets, or 50-60 million full sized books of the American size.

Now the Gosizdat is no longer alone in the field. Dozens of other publishing houses have sprung up with more or less governmental connections. The All Russian Co-operatives have their own printing house, the Krasnaya Nov, house of the political bureau in the Dept. of Education, is also flourishing and many trade unions and cultural organizations, such as the Young Pioneers, maintain their own publishing houses of their own.

Australian Seamen Out for Unity on Oceans of World

(By Federated Press.)
MELBOURNE, Australia, Sept. 2.—An endeavor is being made to bring about the world-wide organization of maritime unions, with the object of establishing an international seamen's code. The federal council of the Australian Maritime Workers' Union has agreed to affiliate with the International Transport Workers' Federation. Other Australian maritime unions are expected to affiliate.
Owing to the shortness of notice the Australian unions have found it impossible to have a delegate present at the international conference at Hamburg in August. What the Australian Maritime Stewards' union is asking is an international seamen's code adopted by all countries on the basis of the best country with a 48-hour week, a decent standard of accommodation, sleeping and living; proper provisions regarding safety; and an international standard of wages based on the highest Australian rate.

American Thinkers Head Things the War is Still On

(By Federated Press.)
ST. LOUIS, Sept. 2.—The war hysteria is yet very much alive at Webster Groves, a suburb of this city, in communication to the community council the American Legion declares it will not participate in Armistice Day ceremonies if the Webster Groves Peace Council "or its officers" are permitted to take part. The communication signed by E. C. Stadel, mayor, post commander, says the Legion post opposes the Peace Council because the council "has by its activities opposed President Coolidge's Defense Day program and thereby demonstrated that it is opposed to preparedness for defense purposes."

BIG BUSINESS IN CANADA SWIPING JAPANESE TRADE

Take Advantage of Rub Between Japs and U. S.

(Federated Press Staff Correspondent.)
VANCOUVER, B. C., Sept. 2.—Canadian business interests are planning on capturing the trade of Japan while the present friction between the U. S. and Japan over the exclusion act exists. The Oriental manager of the Canadian Pacific railway, Allan Cameron, states that Canadian business men have a good chance to get in on the ground floor in the Japanese trade because the Americans have lost favor for the time being.

Canada Finds Pickings

A number of Canadian firms have already sent out trade commissionaires equipped with samples to intercept Japanese merchants. Canadian low grade flour is finding demand from the Orient and many American firms are now planning on cutting their Canadian rubber holdings in order that they, too, may benefit from the swing of trade to Canada. These companies are taking advantage of the cheap labor of immigrants, brought into Canada by the railway interests, and reducing the wages of loggers to a bare subsistence.

WAGES FALL WAY BELOW LIVING COSTS AS HOURS OF LABOR ARE ON THE INCREASE IN LOUISIANA

(By LELAND OLDS
(Federated Press Industrial Editor)

Do you want your children to wear rompers made in some poor unsanitary home by an overworked mother who gets only 30c a dozen for her labor? If you don't, then find out whether the goods you buy are made in Louisiana and begin to organize pressure which will put a stop to such exploitation.

Between 1920 and 1923 Louisiana employers, according to the report of the state bureau of labor and industrial statistics, succeeded in forcing the wages of common labor down practically to the bare average daily cost of living still far above 1914 this means that the reward for ordinary labor in this state is absolute destitution.

Wages Drop for All.
Even among the unskilled workers, says the report, wage reductions effected usually exceeded the decline in the cost of living. In the average daily wages paid common and semi-skilled labor in various industries in the state in 1920 and 1923 are shown as follows:

	1920	1923	Decrease
Canning	\$1.25	\$1.15	8%
Boothing	2.75	1.50	45%

Oilfield workers	4.00	3.25	19%
Rice mill workers	3.50	2.00	43%
Sugar cane workers	2.75	1.25	55%

Day of Work Lengthened.
The losses suffered by these workers since 1920 are also reflected in a lengthening of the work day. Sugar cane workers worked 8 to 10 hours per day in 1920. Now there is no such thing as a 9-hour day in eight, they put in a full 10 hours for their \$1.25 or at the rate of 12 1/2c an hour. The same holds in the case of every other industry covered by the report. In all there were instances of the 8 hour day in 1920. In 1923 it is the 10 hour day with the exception of cotton seed and rice mills where the 10 hour day is now 12 hours long.

WOMEN TOIL IN STINKING AIR AND DAMP HOLES FOR RAILWAY EXPRESS COMPANY OF CHICAGO

Women toil for the American Railway Express Company of Chicago under conditions that would rival those of the feudal serfs of the middle ages.

These women were formerly at the South House of the American Express Company, between Harrison and Polk Streets, on LaSalle Street, where conditions were fairly bearable. But the efficiency gods who rule the destinies of the company's employees in the interest of economy transferred them to what is known as the North House. They keep a record of the men on the job by punching time cards on clocks as the slaves come and go to and from jobs.

The North House is under the railway tracks and the rain drips from the roofs all day. Chickens, fish and other stock of all kinds are loaded and unloaded continually. The place reeks in filth and the stinking atmosphere would even shame the stock yards of Chicago. There is no lavatory of any kind and no place for privacy. Here three women toil all day.

One woman, the only support of an aged mother and a little daughter, was taken ill and had to lose a couple of days of work, which of course was deducted from her meager wages. Another, the only support of two little children, wanders around all day in a stupor from bodily fatigue but dare not lose a day from work to recuperate. Any minute will see her sink to the floor and carried off to the hospital.

These are the horrible conditions under which the employees of one of the largest and richest monopolies in the United States are forced to work.

DANES AGREE ON BENEFITS OUT OF RUSS AGREEMENT

All Greet Recognition Of Soviet Land

(Rosta)
MOSCOW, (by mail).—Commenting upon the new recognition of the Union of Soviet Socialist Republics by Denmark, the Danish press, including the governmental and the bourgeois, is unanimous in pointing out the beneficial effect this agreement is bound to have on the trade relations between the two countries.

Even Socialists in Line.

The Social Democrat, a government organ, stresses the point that although Denmark recognized the U. S. S. R. later than the other Scandinavian states, she is to benefit in a like way by the "most favored nation" clause. The paper further scornfully recalls the absurd anti-Soviet agitation formerly indulged in by the Danish bourgeois.

At the time Mr. Livin was staying at Copenhagen, as well as the break-up of the Russo-Danish negotiations at Stockholm in 1922 by ex-Foreign Minister Severin.

An influential conservative paper, the Berlingske Tidende, writes that the new treaty is but a logical consequence of the 1922 trade agreement between Denmark and the U. S. S. R. Another bourgeois, the liberal Copenhagen, emphasizes the improvement of inter-relations with the Union.

Communist Greet News.

The Arbeiterblad, the organ of the Communist Party, states that this act of Denmark is a warm welcome to the recognition of the Russian Bolshevik Revolution and regrets that the Danish government did not do it already two or three years ago.

The Danish Communist Party extended official congratulations to the Soviet Plenipotentiary Mission.

**ARE YOU SELLING THE COUPONS
FOR THE COMMUNIST CAMPAIGN?**
It is an easy job. The coupons sell for 25c, 50c and \$1.00 each. You can sell them easily as sympathizers. Send in the money as fast as you get it to the local office, 161 W. Washington St., Room 303. Every member of the party is expected to sell at least one coupon. Communist Party National Campaign, which contains \$100.00 worth. Help finance the Revolution!
