

GITLOW EXPOSE OF WOOL TRUST WELL RECEIVED

New England's Textile Workers Enthused

By JOSEPH MANLEY, Campaign Manager, Workers Party.

Benjamin Gitlow, vice-presidential candidate of the Workers Party, in his present tour thru the New England states, is doing much to give direction and conscious leadership to the revolt now brewing against the American Woolen Company and the textile trust. His election addresses give the Communist program a decided edge to that of New England capitalism.

Gitlow's meeting just held at Maynard, Mass., and Providence, R. I., both principally owned and controlled by the American Woolen Company, were a great success. At Maynard, Mass., Gitlow spoke in the Public Square, right in front of the American Woolen company.

Expose Textile Trust.

A great mass of textile workers congregated. They paid the closest attention to Gitlow's ruthless exposure of the methods of "Charlie" Wood, and the American Woolen Company. Maynard, Mass., was the scene of the present and their consternation at the effects of Gitlow's speech on the crowd, was apparent.

During the last year and up to his present appointment in China, Mr. Klyshko was a member of the collegium of the People's Commissariat of Foreign Trade, dealing

the regulation of exports and imports into the Union of Soviet Socialist Republics.

His arrival in this country is expected to have a most favorable bearing on the development of economic and trade relations between the Soviet Union and the Republic of China.

Gitlow showed that the American Woolen company is heavily interested in the political success of Coolidge and the Republican party. This interest is best typified by the famous "schedule K," the republican protective tariff policy under which the huge profits of the American Woolen company have been piled up.

The Aldrich family, large stockholders in this company, have been formed from the working of the Payne Aldrich tariff bill. This protective tariff combined with the tyrannical exploitation of its workers enabled the American Woolen company to pile up net profits of over nine million dollars last year.

"Charlie" Woods, the czar of the American Woolen company, complains about the poverty of the woolen industry. Using poverty as an excuse he has cut the wages of his workers 25 per cent since 1920. Now he talks of the necessary further cut in wages of 20 per cent.

Creates Sensation.

The revolutionary speeches of Gitlow, both at Maynard and at Providence, have created a sensation in the ranks of the textile workers.

The past struggle of the workers has been in many cases of a mass character and have had all the characteristics of the class struggle. Gitlow's emphasis on the class struggle as a basis for militant industrial unions aroused stormy enthusiasm. He marshaled all that demanded the removal of the government by the Textile Trust and Wall Street, and the necessity for a political struggle against capitalism. Former syndicalists and socialists were present at these meetings, and if one is to judge by their expression and fervor, many more have been won to the cause for the class struggle in New England.

The sincere socialists of this section know that LaFollette cannot break up the textile trust, and many syndicalists formerly opposed to political action are beginning to see the point to make arguments made in the speeches of Gitlow.

His expose of the control of the old parties and the government, by the financial oligarchs such as the American Woolen company, clearly pointed to his audience's necessities to judge by their expression and fervor.

Measures must be taken to break up the textile trust and Wall Street.

"He took the loss of his job very much to heart, and since leaving Mr. Morgan's employ his health declined greatly."

The deceased Morgan sentinel had been stationed at a concrete bridge over the 45th Street, just outside of New York from the mainland.

His employer has such guards posted at all the strategic points around his estate under a semi-military discipline. Price denied the charge but was given no appeal.

KLYSHKO, RUSSIAN MEMBER OF FOREIGN TRADE IS IN PEKING

By ROSA.

PEKING, China, Sept. 4.—Mr. Nikolai Klementevich Klyshko, counselor of the embassy of the Union of Soviet Socialist Republics and concurrently trade representative of the Union in China, arrived at Peking accompanied by members of his staff.

Mr. Klyshko was born in 1880. He is an old member of the Russian revolutionary movement, and has played a prominent part in the diplomatic and foreign trade service of the Soviet government since the October-November revolution in 1917. Mr. Klyshko was first secretary and then chief of the Soviet trade delegation in London, which, under Mr. Krassin's chairmanship, concluded the Russo-British trade agreement of 1921. Presently he is the secretary of the Soviet delegation to the New England states delegation which came to the revolt now brewing against the American Woolen Company and the textile trust. His election addresses give the Communist program a decided edge to that of New England capitalism.

Gitlow's meeting just held at Maynard, Mass., and Providence, R. I., both principally owned and controlled by the American Woolen Company, were a great success. At Maynard, Mass., Gitlow spoke in the Public Square, right in front of the American Woolen company.

The sincere socialists of this section know that LaFollette cannot break up the textile trust, and many syndicalists formerly opposed to political action are beginning to see the point to make arguments made in the speeches of Gitlow.

Morgan Watchman Dies Because He Was Fired by J. P. Morgan

GLEN COYCE, I. L., Sept. 21.—Chas. A. Price, watchman on the Pierpont Morgan estate, was charged with sleeping at his post. He was dismissed. Price dropped dead six weeks after his discharge. Dr. J. R. Connolly, health officer of the town, said:

"He took the loss of his job very much to heart, and since leaving Mr. Morgan's employ his health declined greatly."

The deceased Morgan sentinel had been stationed at a concrete bridge over the 45th Street, just outside of New York from the mainland.

His employer has such guards posted at all the strategic points around his estate under a semi-military discipline. Price denied the charge but was given no appeal.

Gitlow Exposes Other For Third.

SHOUX FAILS, S. Dak., Sept. 21.—An announcement that Gov. W. H. McMaster had deserted the LaFollette fold and would publicly announce himself for the Coolidge-Dawes ticket at the meeting here to nominate the Communist principles of the DAILY WORKER were also said at the Davis democratic meeting Thursday night.

One False Drop, Other For Third.

ANDERSON, Ind., Sept. 21.—A petition urging clemency for Bernard Grant, under sentence of death at Chicago for the murder of a policeman, is being circulated among factory workers here. More than 100 signatures already have been obtained, it was en route.

DAILY WORKERS were also said at the Davis democratic meeting Thursday night.

Young Workers League Activities.

MARSHFIELD, Wis., Sept. 22.—The union maintained that this government was a capitalist government and that it didn't matter a pine's squeak whether an honest man was in office or whether he was a second story man. They said that "good men in office" would not solve the problem, and that the one that was needed was a complete change, not only in government but in the system of society in which we are all unfortunate enough to live. They believed in doing away with capitalism and in amalgamating the cooperative common struggle.

There must be some regulation of the materials of work. Scales of all trades must be eliminated from the industry. These are the policies of class struggle of fighting against the boss

Carpenters Can Lead Thru Fighting Policy

TOLEDO S. P. GOING OVER TO ELEPHANT

"Socialists" Leave For the Juicy Plums

(Special to THE DAILY WORKER)

TOLEDO, Ohio, Sept. 21.—Former socialists in this city are now fast falling into the political camp which will nearly fit the size of the fellow socialists of the present day.

Men who used to eat themselves socialists have thrown off the mask and deserted even the LaFollette shirt-tail socialist party of today, joining the republican camp.

Hand Out Plums.

Harry Curtis, who at one time represented the socialists in the city council, has just been given a juicy plum job by the public administration. Curtis was appointed to fill the vacancy left open by the retiring auditor, who quit to make room for handsome Harry.

These hand out plums to those who advocate them. The class struggle exists, not because a few "radical" leaders are able to do because of the strength of the union.

No single union, standing alone, can put up a successful battle against the bosses, once the building boom slackens down considerably. Only a fool or a faker will say that the "open shop" drive will not soon be upon us again. The carpenters cannot stand alone, they are determined to stand together.

The World of Labor • Industry & Agriculture

WON'T GIVE UP UNION BUTTONS SAY UNION MEN

N. Y. Cleaners Picket in Spite of Thugs

(Special to The Daily Worker)

NEW YORK, Sept. 21.—The Guarantees Window Cleaning Company, of 110 West 42nd Street, which has many times tried to drop the union, embraced the opportunity presented by the strike situation here to lock out all their union employees.

When their 23 window cleaners came to the office to get their routers they were told they had to throw their union buttons away or lose their jobs. Union Men Out.

The union men quit immediately and reported to the union. The window cleaners are determined to see this fight through to a finish to prove to the bosses that their union is here to stay.

This is not the first attempt made to break the union by the employers association, the union officers say. H. Weintraub, secretary of Local 4, told the DAILY WORKER: "We had a strike five years ago, when the employers tried to put the open shop proposition over on us and they have been doing it since. This fight will prove to them once and for all that this union is something they will have to accept."

Cleaners in Constant Danger. "The window cleaner must have an organization to look after his interests. The work of cleaning windows carries with it many dangers that only the combined understanding of men on the job can help eliminate. For instance, in dieser a window cleaner is submitted to every day on the job by working on buildings many stories high. Only working conditions and salaries that can keep a worker at it can help to lessen the dangers of this kind of employment. The man's only friend is the union. They know it and there is not the slightest chance of their ever giving it up. It is a fight to a finish."

The Guaranty Window Cleaning Company is employing gangsters, private detectives and all the police are at their assistance to scare the pickets away from the windows of their office. But the men cannot be intimidated and they are on the job picking every day."

LABOR SPY IS DRIVEN FROM HIS LAIR BY T. U. E. L.

PITTSBURGH, Sept. 21.—The local branch of the Teamsters Union Educational League has finally forced the labor leaders to take action against the notorious stoolie pool. Robert W. Beattie, labor banker and secretary of the Pittsburgh Central Labor Union.

Mr. L. J. Liss, issued a leaflet demanding that the stoolies spy, reactionary and red baiters be driven boot out of the labor movement. It is rather peculiar that the labor leaders who are so quick to prefer charges against radicals, were so slow in fighting a fire under the crook Beattie.

Easy with Crook.

Even, when action was forced and Beattie decided to tender his resignation, the reactionaries did not want to move. After three hearings Beattie decided to resign, but the trade union rank and file were not satisfied with the "way out" Beattie had chosen.

Mr. Nelson, acting secretary of the C. L. U. wanted all the Bolsheviks to leave the church before he'd call with them.

Robins went on incisively: "Sam Gompers went to the Civic Federation, the sheriff, revolver in hand, and waited at the front door of the Wellington Trust company here to waylay Dr. W. A. McConkie of this city out of \$500, today, was awaiting the arrival of his husband from Peoria, following which she told police, she would prove her innocence.

The robbers locked five employees in the cellar.

Robins Reneges.

These were the sentiments of the

UNCLE WIGGILY'S TRICKS

operations prevalent in the iron mills, auto plants, and steel industries.

Surplus of Labor in North-Central States.

In the Chicago district there is still

apparent a surplus labor.

In the East St. Louis industrial district of the same state there is no overflow of workers, but in the steel plants, the army of jobless working men has been reduced to a minimum.

Steel, and allied industries

are continuing to work only on part

time and with reduced forces.

In Springfield, and Cairo, common labor

bears the brunt of the suffering.

The Hoosier state of Indiana finds

practically all of its industrial plants

closed.

The Indianapolis furniture and

automobile industries are hard hit by

unemployment.

In the Detroit manu-

facturing industries

unemployment

continues in all manu-

facturing industries

and employment

is still

surplus.

Going over to New Jersey, we find

extreme inactivity in the machinery and rubber industries.

Turning to the textile industries, we find that in the Paterson district, the same state there is a great surplus of labor in the automobile industry.

Machine and

wood workers and common labor are

idle in the Kalamazoo district.

The building industry of Wisconsin is still in a bad way.

In the Milwaukee industrial district,

the surplus of skilled and unskilled labor continues.

In Ohio a large

number of coal miners are still out

of work.

With the exception of the

textile, clothing, and food industries,

all plants are operating on part

time.

In the Cleveland district, the building, machine, and machine-tool trades are operating on part time in the Cincinnati district.

In Columbus, several

blast furnaces are closed

and most departments in the steel plants

are working with reduced forces.

In North-Central States Still in Slump.

For the general trade trades workers in Minnesota has increased slightly last month, there is still a surplus of workers in this line.

Harvest labor demands are temporally proving a source of relief.

Michigan shows no increase in the demand for common and skilled labor.

There is a general

surplus of labor in the metal mines and smelters of Arizona.

In Utah employment in the railway shops continues on a curtailed basis.

On the five-day week in Wyoming

there is a great surplus of labor because of the fact that larger industries are working with curtailed forces and, in some instances, on part time schedules.

In Georgia many textile mills

remain closed and there is a surplus of this class of labor and unskilled workers.

There is a general

surplus of labor in the metal mines and smelters of Arizona.

In Nevada there is a surplus of agricultural labor and industrial employment.

The surplus of common labor in the metal mines and smelters of Arizona.

There is a general

surplus of labor in the metal mines and smelters of Arizona.

Americanizing Canada

The Dominion of Canada is planning to borrow a hundred million dollars in the United States. The offering of an issue of short term notes for the Canadian government is part and parcel of a plan to refund the Dominion's debt of about two hundred million dollars.

The flotation of this loan in the United States is another indication of the rapidity with which American capitalist interests are assuming control of the economic life of our northern neighbor. There are today invested more than two and a half billion dollars of American capital in Canada. American investors hold nearly twenty per cent of the Canadian government provincial and municipal securities. Twenty-five per cent of the Canadian Pacific Railway shares are in the hands of American capitalists. The situation involving the control of Canada's mines, railways, motor car and accessories industries, meat, rubber, metals and refined petroleum is essentially the same.

Momentarily there is a new angle to this Canadian loan. It appears that the Chase Securities Corporation is planning to compete with J. P. Morgan & Company for this loan. It had been assumed that the House of Morgan, which financed the Dominion government during the war, would without question be the sole financial institution called upon in this instance. Besides, recent years have witnessed a specialization on the part of the Morgan firm to do in government loans or serve as a direct agent of large corporations.

This little brush with Morgan's concern, which is principally an underwriting house, and the Chase corporation, which is primarily a commercial bank, is interesting in the sense that it shows that the process of complete unification of our biggest financial interests is not yet consummated. However, it holds out no hope at all for Canada. The connections and dealings between J. P. Morgan & Company and the Chase Corporation are too numerous and too firmly rooted to be disturbed by this temporary competition.

The Campaign Fund must be supported by the Party. The work of the National Organization and the District has been crippled because the work of raising funds has not gotten under way promptly. Every member must sell CAMPAIGN FUND STAMPS among his friends and shopmates and thus help implement the work of the campaign.

The result we achieve in the form of support for our candidates at the polls depends upon the number of workers we reach with our speakers, our leaflets and our publications.

We have distributed a half million copies of our election platform. But our Party should be able to distribute at least two and a half million copies. That means only one hundred copies per member. Distribution of leaflets is something every Party member can do. We must increase the number of platforms which have been distributed. We must distribute our new leaflets on Capitalist Dictatorship and Unemployment, which are being published.

The Party is issuing special campaign pamphlets. These must be sold by the thousands in order to help the workers a more thorough knowledge of capitalism and of Communist principles.

The speakers, being Communists, should be put up by the millions. The number of speakers held must be distributed, trebled, and more effective work done in arranging the meetings.

The Campaign Fund must be supported by the Party. The work of the National Organization and the District has been crippled because the work of raising funds has not gotten under way promptly. Every member must sell CAMPAIGN FUND STAMPS among his friends and shopmates and thus help implement the work of the campaign.

Help Mobilize 100,000 Workers for Communism

(Continued from page 1)
spirit of: WE HAVE MADE OUR CHANGE OF TACTICS. WE ARE IN A STRUGGLE. AS COMMUNISTS THE WHOLE STRENGTH OF EVERY WORKER AND EVERY PARTY UNIT MUST BE GIVEN TO THAT STRUGGLE.

Six weeks of work in that spirit will get us one hundred thousand new readers for our candidates. It will get us ten thousand new members. It will get us ten thousand new readers for the DAILY WORKER.

Six weeks of work will enable us to register the election as one of victories, along the long and winding road to the Proletarian Revolution. Even though the Farmer-Worker United Front did not win victory for our Party, the we did not attain our objective because we strengthened, built up and extended the influence of our Party, the Workers Party—the Communist Party in that campaign.

With the ten thousand new members should go ten thousand new readers for the DAILY WORKER.

The election campaign offers the best opportunity to secure subscriptions. The workers are interested. They will listen. Public meetings bring them together.

THE DAILY WORKER is a power for Communism now. It is preparing the way for a stronger Communist Party. If we add ten thousand more to our Party we will put it on a safer foundation, extend its influence and prepare more material for party membership in the future.

A NEW MEMBER AND DAILY WORKER SUBSCRIPTION FROM EVERY MEMBER OF OUR PARTY IS OUR SLOGAN. THAT IS HOW WE CAN GET TEN THOUSAND NEW MEMBERS. IF WE WORK AT ALL, WE WILL SURELY GET TEN THOUSAND NEW MEMBERS AND TEN THOUSAND NEW READERS.

THE DAILY WORKER.

With the ten thousand new members should go ten thousand new readers for the DAILY WORKER.

The election campaign offers the best opportunity to secure subscriptions. The workers are interested. They will listen. Public meetings bring them together.

THE DAILY WORKER is a power for Communism now. It is preparing the way for a stronger Communist Party. If we add ten thousand more to our Party we will put it on a safer foundation, extend its influence and prepare more material for party membership in the future.

A NEW MEMBER AND DAILY WORKER SUBSCRIPTION FROM EVERY MEMBER OF OUR PARTY IS OUR SLOGAN. THAT IS HOW WE CAN GET TEN THOUSAND NEW MEMBERS. IF WE WORK AT ALL, WE WILL SURELY GET TEN THOUSAND NEW MEMBERS AND TEN THOUSAND NEW READERS.

Work! Work! Work!

Comrades! The Proletarian Revolution does not fall from the skies. The Communist Party is not organized by wishing for it. It is work, work, work, and more work that carries along the road to our goal.

Now is the best opportunity for work. Now we are in the midst of a great election campaign. Now is the best time to get results.

Cards are being distributed door to door during the campaign this opportunity which like never before. Comrades prove that we are really working for our Party. The Party requires work from us.

Comrades! Today we fight one way, tomorrow another, the next day still another. We must learn that lesson. We must learn to always fight for our principles and our Party.

Let us prove that we can do it.

Let us throw our whole energy into the election campaign and work with enthusiasm to achieve:

At least a hundred thousand votes for our candidates.

Ten thousand new Party members.

Ten thousand new readers for the DAILY WORKER.

The Wilbur Recall

The recall by President Coolidge of Secretary of the Navy Wilbur from his speaking tour on the Pacific coast has aroused widespread interest of an international character. Not only has there been made an attempt to learn the why and wherefore of this sudden "come-home" order, in the United States, but there has been manifested some anxiety even in Japan and England.

As usual, Mr. Coolidge would have the country believe that everything is just normal and that there is no occasion for disturbance. The facts belie the explanations or rather the absence of explanations on the part of Coolidge. The truth of the matter is that Mr. Wilbur was talking just a little too much and above all was telling too plainly the aims and plans of the American militarist clique. Mr. Wilbur's unguarded and uncamouflaged plans for gun elevation at a time when Great Britain was protesting this move as a violation of the Washington Conference agreement were considered as unfortunate and inappropriate.

Nor did Japan welcome the bombast of Wilbur when he declared: "Marching hosts of two civilizations stand face to face across the Pacific," and that the maintenance of a powerful fleet "would be a deterrent against hasty, passionate, and ill-advised attack and conflict." Indeed, the answer of Japan to this confession of purpose by our first war lord of the sea is the plan of its navy department to elevate the guns of the Nipponese fleet.

The art of diplomacy, like other arts, can be mastered only with time. Mr. Wilbur learned to play his trade of befuddling the minds of the masses and serving his employer, the capitalist class, after he stays in the game as long as some of his colleagues. Messrs. Mellon and Hughes have been too long at it to spill the beans so clumsily. No doubt, the comparatively speaking, novice Wilbur was ordered to come back to his post in order to improve his skill as a diplomat and in order to avoid the embarrassments which usually follow plain, blunt talk in imperialist politics.

Purifying Democracy

Our national election campaigns appear to the careful observer as dress rehearsals of the sham democracy with which we are blessed.

On the eve of these campaigns the employers whose class interests are served best by the fraudulent parliamentary system tend to get busy to purify our democratic institutions in order to make these dress rehearsals gala affairs. It was this desire for political advantage that animated John W. Davis to resign, temporarily at least, from many of the corporate directorships held by him. Of course, Mr. Davis refused to give up these financial footholds before he was sure of getting the democratic nomination.

Such dishonest and meaningless attempts at purifying our national politics are not the privilege of the democrats alone. All employing class parties vie with each other in throwing sand into the eyes of the workers by attempting to assume the holiest of holy attitudes in the purest of pure democracy.

The constitution provides that "no person may serve as a presidential elector who is holding an office of trust or profit under the United States."

Therefore, Colonel Francis T. Maxwell has given up all his banking connections including the directorship in the Hanover National Bank of New York and the Hartford National Bank, and the Rockville National Bank of Connecticut.

This is the second instance where a republican elector has resigned his business directorships in order to avoid a possible contest of eligibility in the electoral college. Apparently, Coolidge and his supporters are sure of a sharp contest in the electoral college and are not prepared to risk a single vote. We wonder where the textile baron William Butler, who is now the republican big boss, will stop in such purification in order to avoid possible conflicts over the election of the Phoenix of the Potomac.

It is of course, the height of asininity to consider these resignations, whether they be temporary or permanent, as steps in the direction of the purification of capitalist democracy. Germans can't be purified. A cancer cannot be cleaned up, but must be cut out if the patient is to stand the slightest chance of living. The illusory employing class democracy, in reality a terrorizing exploiter's dictatorship, holds out no hope to the masses, even at its purest. Surgery, and not the quack patent medicines, offers the only road to salvation.

Wheeler's crime in trying to scuttle the Farmer-Labor Party in Montana is greater than Doheny's steal of Teapot Dome. After all Doheny never claimed to be anything but a capitalist. Wheeler is parading over the country as "a friend of labor," but really stabbing it in the back at every opportunity.

Capitalism must be in a very bad way when it invites the representatives of Soviet Russia to a disarmament conference. Well, that is what we have been saying all the time, that capitalism is on its last pins.

Workers and farmers are beginning to analyze the LaFollette illusion and discovering there is nothing in it for them. They are casting their lot with the Communist candidates, Foster and Gilmore.

"Hands off China!" is the demand of the Russian workers and peasants upon the capitalist world, that should be taken up by labor everywhere.

Balkanizing South America

It has oft been said that the Balkans are the curse of Europe. This is true if war plots, imperialist machinations, royal conspiracies, and capitalist conflicts are to be accepted as the basic criterion of the curse on the continent.

More major wars have had their origin in the Balkans than in perhaps any other section of the world. The Balkans are the least industrialized portion of Europe, except for some great stretches of Soviet Russia. The Balkans abound in natural resources. The Balkans are the threshold to the near-East and the unlimited wealth of Asia. It is precisely for these reasons that the capitalist imperialists of Europe have promoted national strife, political chaos, economic stagnation, and wars in the Balkan peninsula.

The American imperialists also have their Balkans. The chronic chaos in Central America is only a staging of Balkan politics on a smaller scale. Geographically speaking, the political instability and economic under-development of South America are a staging of sinister Balkan maneuvers on a larger scale.

Just now, there is going on a great race for naval armament in South America. In March 1923, the United States was instrumental in holding a Pan-American Disarmament Conference in Santiago, Chile. Thru the efforts of the Yankee imperialists this conference was a flat failure.

Since then Peru has ordered a fleet of submarines, the construction of which is being directed by an American naval mission established in Lima, Chile has opened the largest drydock in South America in order to maintain its fleet at the maximum efficiency. In Brazil there is an American naval mission planning the greatest naval development in South American history. Argentina is considering a bond issue of about two hundred million dollars for military and naval purposes.

The leading Argentinian battleship, Rivadavia, is now in the United States being thoroughly modernized.

This mad naval race is the result of America's refusal to put a halt to it at the Santiago conference. Apparently the American capitalists are bent upon fostering national strife, group jealousies, political turbulence, and economic instability in South America for their own class purposes.

The Yankee imperialists do not desire to see a unified Latin-American continent. Solidarity and common purpose among the Latin American peoples would only hasten the end of Yankee imperialist domination.

The capitalist class whose industrial throne is in Wall Street and whose political seat is in Washington, is deliberately Balkanizing South America as the European imperialists have Balkanized Southern Europe for their own sordid imperialist purposes.

The Dominion of Canada is planning to borrow a hundred million dollars in the United States. The offering of an issue of short term notes for the Canadian government is part and parcel of a plan to refund the Dominion's debt of about two hundred million dollars.

The flotation of this loan in the United States is another indication of the rapidity with which American capitalist interests are assuming control of the economic life of our northern neighbor.

There are today invested more than two and a half billion dollars of American capital in Canada. American investors hold nearly twenty per cent of the Canadian government provincial and municipal securities. Twenty-five per cent of the Canadian Pacific Railway shares are in the hands of American capitalists. The situation involving the control of Canada's mines, railways, motor car and accessories industries, meat, rubber, metals and refined petroleum is essentially the same.

Momentarily there is a new angle to this Canadian loan. It appears that the Chase Securities Corporation is planning to compete with J. P. Morgan & Company for this loan. It had been assumed that the House of Morgan, which financed the Dominion government during the war, would without question be the sole financial institution called upon in this instance. The speakers, being Communists, should be put up by the millions. The number of speakers held must be distributed, trebled, and more effective work done in arranging the meetings.

The Campaign Fund must be supported by the Party. The work of the National Organization and the District has been crippled because the work of raising funds has not gotten under way promptly. Every member must sell CAMPAIGN FUND STAMPS among his friends and shopmates and thus help implement the work of the campaign.

Indeed, the Party requires work from us. The work of the National Organization and the District has been crippled because the work of raising funds has not gotten under way promptly. Every member must sell CAMPAIGN FUND STAMPS among his friends and shopmates and thus help implement the work of the campaign.

The result we achieve in the form of support for our candidates at the polls depends upon the number of workers we reach with our speakers, our leaflets and our publications.

We have distributed a half million copies of our election platform. But our Party should be able to distribute at least two and a half million copies. That means only one hundred copies per member. Distribution of leaflets is something every Party member can do. We must increase the number of platforms which have been distributed. We must distribute our new leaflets on Capitalist Dictatorship and Unemployment, which are being published.

The Party is issuing special campaign pamphlets. These must be sold by the thousands in order to help the workers a more thorough knowledge of capitalism and of Communist principles.

The speakers, being Communists, should be put up by the millions. The number of speakers held must be distributed, trebled, and more effective work done in arranging the meetings.
