### WORKERS PARTY ENTERS CHICAGO CITY ELECTIONS

#### Securing Signatures Is Our Immediate Job

In the coming aldermanic elections on February 4, 1925, the Workers (Communist) Party, Local Chicago, is entering candidates in various wards. The immediate task of the Workers Party and Young Workers League members will be to get sufficient signatures to place the Communist candidates on the ballot.

Time is Short.

Only a short time is available for that purpose, and comrades therefore must work hard to get as many signatures as possible in the shortest time. Every petition must be in the local office, 160 W. Washington, by Friday, Jan. 12, 1925. EVENING JANUARY THE ELEVENTH.

The number of signatures required varies in each ward depending upon the size of the ward. An average of about 500 signatures is necessary in each which is not a very great number. All signatures will be carefully checked and certified to be genuine and fully supplied with material. Branches of the Workers Party and Young Workers League have elected branch committees to collect signatures in their territory assigned them, and every member of the party has been assigned to cover a certain territory to get signatures on petitions and should be ready to cover that territory immediately.

Report Once A Week.

Members of the branch committees that is the name of our candidates do not appear as running under the label of the Workers Party. However, our action will make it a Communist campaign.

Every registered voter and citizen living in a ward and able to sign a petition is asked to sign for another candidate in the coming aldermanic election is eligible to sign petitions to place our candidates on the ballot. Comrades, if you are not able to sign, then sign for another candidate. We must have certain of the fact that the signer has not signed for another candidate, otherwise the name will be thrown out.

Also comrades should see that the signer gets his full name and address on the petition and that it is signed. Every voter in that ward is encouraged to do this.

#### Carry Out Worker Bundle

In connection also with the immediate drive to place the Communist candidates in the elections, we are conducting a DAILY WORKER drive. Every comrade who goes out to secure signatures for another candidate in the DAILY WORKER will have him sign and leave a copy at each place he visits. Also comrades are to take up the distribution of the Worker Bundle for THIS DAILY WORKER and there is every possibility of excellent success for THIS DAILY WORKER if this is done carefully and systematically.

#### CAPITALISTS IN CONFERENCE TO DISCUSS SPOILS

#### Revisit Scenes of the Versailles Pact

(Special to The Daily Worker)

PARIS, Jan. 7.—The thieves have gathered to quarrel in a polite way, over the plunder.

Representatives of the twelve allied robbers, including six financiers, have assembled in the famous clock room of the foreign office palace and were called to order at 3 o'clock.

Recalls the Dead.

It is the same room where the three old and important men are buried, all dead—Wilson, Lloyd George, and Clemenceau, drew up the range of impossible penalties called the treaty of Versailles.

The specific purpose, it was announced, was to make a division among the allies of Germany upon the basis of the peace of the Dawes plan.

Europe Has Something Else.

Representatives of the European states do not conceal, however, that the conference is to be held to discuss in the plan of the allies war debts, in spite of the fact that it is not mentioned in the official agenda.

Plots to Claim Debt Due.

All delegations except the American are anxious to begin the discussion of the treasury debt question.

## BIG QUARREL LOOMS AMONG THE DIPLOMATS

### For the First Time Nobody Talks

(Special to The Daily Worker)

**PARIS, Jan. 7.**—The situation before the war, after the peace prevailing in Paris in the afternoon of yesterday brought ever closer the opening tomorrow of the allied financial conference.

In diplomatic circles there was a distinct tremor of expectancy and, for the first time since the war debt situation became a controversy no foreign representative was willing to talk.

United States Ambassador Kellogg arrived from London this afternoon. He would not discuss the situation. It was thought possible, however, that a statement would be made concerning the payment of his war claims when the Dawes plan would be voted on.

U. S. Ambassador's 350,000 Reparations. America's failure to obtain \$60,000,000 as its share of lost and reimbursement for the cost of the American army of occupation at the Coblenz peace head will begin tomorrow, when the allied financial conference commences.

The United States claims \$350,000,000 for damages to persons and property and \$22,500,000 for keeping the doughboys on the Rhine for five years.

The financial conference decided that France and Poland are entitled to a deduction of the cost of the Ruhra armistice from the cash and material claimed in the Rhine region. The sum is \$2,000,000. September, 1924, or whether all the proceeds shall be lumped together and divided pro rata.

Interest Percentages.

The finance ministers must readjust the allies' percentages of reparations under the Dawes' plan, which reduces the total indemnity Germany was to pay from \$12,900,000,000 gold marks (\$3,000,000,000) in an indeterminate figure, down to \$11,000,000,000 gold marks (\$1,500,000,000).

The fixation and deduction of various priorities must also be solved, including the American claim for payment of the \$100,000,000 war loan under the Wadsworth agreement and the expenses of various commissions.

The total of these priorities exceeds \$1,000,000,000 gold marks (\$150,000,000), so for a few years the allies will have only 100,000,000 gold marks (\$150,000,000) to divide among them.

No Discussion of War Debts.

The American delegates, Ambassador Myron T. Herrick, Ambassador Frank B. Kellogg, and the other members of the peace commission, as instructed not to permit any discussion of America's war debts, and to insist on a settlement of the United States debts.

Just where the robbery occurred has not been ascertained. It was not found until the train reached Chicago. The robbers are believed to have climbed aboard shortly after the train left Milwaukee, and to have to the strong box, worked leisurely, as the train makes two stops.

## RUSSIAN LAND NOW OPEN FOR THE ONCE PROSCRIBED HEBREWS

**MOSCOW, Jan. 7.**—In addition to the 80,000 acres art aside recently by the Ukraine for colonization by Jews, White Russia has given 25,000 acres for this purpose. This is for the Jewish agricultural colonies, which are to be established in various parts of the country, but by the growth of cooperation and government factories, as well as by the policy of the government toward private trade. The land is now open to Jewish settlement, as it was not in the early time, as thousands of Jews are leaving the ill-paid patty trading day the farm.

## THE TEXTILE WORKERS MUST FIGHT AGAINST SLAVE CONDITIONS

Capitalist Imperialism Turns Its Forces Against Textile Workers; Other Industries Will Follow; Nothing But a Militant Class Struggle Can Save the Workers. Unite With the Workers (Communist) Party for the Political and Industrial Solidarity of the Working Class—Statement of the Workers (Communist) Party of America.

*Wake up! Longer hours! Speeding up!*

That is the message delivered by the textile bosses, united in their National Association of Textile Manufacturers, to the workers, men, women and children who work in the textile mills of America.

One of the richest industries of the richest country on earth, the capitalist system has but one program for the working class—more bitter exploitation.

The bosses tell you that you must work harder for less wages—because of "foreign competition."

You do not know that this "foreign competition" is only an excuse for the purpose of cutting your wages and making greater profits for the capitalist class?

You do not know that the infamous Dawes Plan, which the American capitalist class has put into effect, crushes the textile workers of Germany, and from there, proceeds to crush the textile workers of France, England, and now of America? Do you not know that the slave wage of the German workers is now used as the excuse to drive off the U.S. wages of the textile workers?

Workers! You must organize and fight against this slave system of the capitalist class!

You must unite for the immediate struggle against the textile bosses by amalgamating all your little separate unions into one solid and powerful organization!

You must organize the unorganized textile workers!

And above all you must join with your fellow workers in all other industries in the general struggle of the working class against the capitalist class!

You must join in the revolutionary struggle of the workers of the world against the slave-part of the Dawes Plan!

You must prepare to take your part in the struggle of the working class to wrest the powers of government out of the hands of your enemies, the bosses!

You must unite with the revolutionary workers of the world, as well as of all the countries under the leadership of the International Federation and of the American section, the Workers (Communist) Party.

Workers of all industries! Join with the Textile Workers in the fight against the crushing drive of the Textile Bosses!

Amalgamate your unions!

Organize the unorganized!

Unite with the revolutionary workers around the Workers (Communist) Party for the defeat of the Dawes slave plan, with the overthrow of capitalism, for the Workers and Farmers' Government.

## ANTHRACITE MINERS FIRM IN DEMAND FOR CONVENTION AND QUICK SETTLEMENT OF GRIEVANCES

**BART SHAWROS**  
(Federated Press Staff Correspondent)

SCRANTON, Pa., Jan. 7.—The bleak New year of northeastern Pennsylvania finds the deadlock still holding among 12,000 striking miners and their district officials, consisting of President Rinaldo Cappellini and his executive board of District 1, United Mine Workers of America.

The miners have been on strike for the week. The miners' strike for adjustment of long standing grievances against the Pennsylvania-Hillside Coal Co. are demanding a special district convention to take action on the original grievances and to reconcile the ten out of 12 local unions with the district and national federations.

The miners' demand is in the spotlight, as any other issue arising from the strike. The miners' strike is the only one still holding, but from a large number of the rest of the local unions of the \$5,000 workers not struck. Many miners' grievances are being handled by the miners' and the sympathetic prevailing with the Pennsylvania-Hillside strikers.

For the miners' strike is coming in the shape of uniformly worded resolutions which ask the executive board to issue a convention call within 15 days after receipt of the resolution.

The miners' strike was called and confirmed by Wilkes-Barre, Saturday after Christmas, at which were present members of the grievance committee, the local unions in the district, representatives of the miners, including the strikers and the men employed by other companies.

## BOSSES IN BIG CAMPAIGN ON U. S. CHILDREN

### Only One State Has Yet Ratified Proposal

(Special to The Daily Worker)  
NEW YORK, Jan. 7.—The capitalist class and their agents are making the most formidable drive to defeat the ratification of the child labor amendment ever organized by the exploiting class.

During the present month 40 different legislatures will act on the proposed amendment to the constitution which would give congress power to limit regulation of child labor of persons under eighteen years of age.

#### One State Ratified

So far only one state, Arkansas, has ratified the amendment. Three states—Georgia, Louisiana, and North Carolina have turned down the proposal.

Among the powerful organizations that desire to see the blood of America's youth coagulated into gold for the use of our parasite class is the Roman Catholic Church. Cardinal O'Connell, that political-catholique corporation, waged a bitter campaign in the recent elections against child labor, declaring the law to be the best defense of the youth. The interests of organized religion and those of big capital are identical. It is not surprising that the cardinal had to advise that the public ought to find theoretical justification for his attitude.

#### Defending Big Business

At the big business institutions and the voluntary stooges such as the American defense society, the senates of the republic, the constitutional and other conservative groups, appeal is made to the public on the harmless amendment as a most dangerous and pernicious interference with the rights of the capitalist class.

The American farm bureau sees in it an interference with the "beautiful" activities of the farm boys and girls.

The American Federation of Labor has turned down the proposal for the amendment. But outside of an occasional milk and water statement from headquarters nothing is done.

#### Stop Women's Night Work

PASSIAC, N. J.—Night work for New Jersey women was outlawed for from 2 to 6 a. m. by a bill introduced on June 6 at the state legislature. The women law went into effect. Many textile plants are affected. The law was passed by the 1923 legislature.

#### More Textile Wage Cuts

WHITEHORN, Mass.—Textile workers are receiving wage cuts that to 10 and 12 per cent. Wage cuts were coming in the Linwood and Saundersville cotton mills owned by Arthur F. White.

#### LOW WAGES AT NATIONAL BISCUIT COMPANY CAUSE OF DEATH OF TWO CHILDREN

(Special to The Daily Worker)

NEW YORK, Jan. 7.—Catherine Murphy, 11, was preparing lunch for Francis, 9, and Walter, 7, when her father Michael Murphy and her step-mother were away at work. Catherine turned on the gas under the pan and forgot to light it. A woman tenant on the same floor smelled gas and came in just as Mrs. Murphy returned at 5 p. m. to find the three children dead. She had come down from Glens Falls, N. Y., to visit their parents over the winter.

Mrs. Murphy works at the National Biscuit Co. for low wages to help out her husband and the children were kept by Dominican Sisters and relatives.

## WHISPERED SCANDAL AGAINST POSTAL CLERKS' UNION ADMITTED FALSE BY THE ADMINISTRATION

By LAURENCE TODD  
(Federated Press Staff Correspondent)

WASHINGTON, Jan. 7.—By open confession of the administration itself, the scandal which was whispered about the Senate last week in mid-December, that the number of unionized postal clerks had been reduced to 100,000 to help them beat the salary increase bill over the Coolidge veto, was false. The men who have been dismissed or suspended for alleged complicity in the deal were all bosses, who had been most unfairly hostile to the postal employees' union. What it is remembered that the scandal, attack on the unions was put in circulation by a member of the administration, from the president himself, the quality of the Coolidge method in dealing with wage questions may be understood.

#### Flaherty Makes Protest

When the names and positions of the alleged parties to the transaction, the Senate and the administration, were disclosed, a formal protest against the false impression created by the whispering scandal was made by Thos. F. Flaherty, secretary of the National League of Postmaster Clerks. Mr. Flaherty, president of the National League of Postmaster Clerks; Eddie J. Galnor, president of the National Association of Letter Carriers; Wm. J. Collins, president of the National Association of Supervisory Employees, is composed exclusively of the supervisory officials in first, second and third class offices. The postmaster clerks, carriers and other postoffice workers are not eligible for membership in this organization.

### Unity, the Need of Textile Workers

The reactionary offensive against the workers, expected by Communists and threatened by the open shop bosses who hold Daves as their model, is beginning.

The whole textile industry, cotton, wool, silk and every other thread must be forced to share in this wage. This is the widely heralded "unity" the capitalist press promised and the basis for the unprecedented boom in stocks and bonds in the New York exchange. Prosperity for the multimillionaire owners of the textile mills—starvation and misery for the textile workers!

In Paterson the late autumn witnessed the resistance of the broad silk workers, led triumphantly by the Communists and the Trade Union Educational League. In Paterson the reactionary bosses were defeated, the fangs of savage exploitation were broken, and a union built up and fortified. Textile workers, look at Paterson and take heart for victory!

Now, throughout New England, the bosses are "announcing" a cut in wages. Shall they get away with it? All depends upon the mood of the workers. Are you willing to struggle, textile workers? Are you willing to strike? Not in little groups, but in a giant wave that will sweep the whole industry!

The Trade Union Educational League yesterday issued a call to you textile workers, organized and unorganized, urging resistance, united resistance—for the keystone of the arch of triumph is "unity."

The conditions, few and weak as they are, are no weapons with which to face the combined power of the National Association of Textile Manufacturers. Battles are not won with popguns, but heavy artillery. You textile workers need an industrial union, and you must force your craft union officials to unite, immediately, in action against the wage cuts, as quickly as possible in one organic body, one great industrial union to take in everybody in the mills.

Textile workers, you must fight your own battles, you must prepare yourselves for inevitable struggle. If you accept one wage cut another will be forced upon you, and you will not protect your wages. You must be able to work any more than the sheep protects itself from wolves by bleating. The bleating only attracts the wolves and sharpens their appetite. Moreover, you are men and women, not sheep, and should fight like men and women.

The Trade Union Educational League has pointed the way for your victory, textile workers: An industrial union! A united front of all textile unions and textile workers against the bosses; Abolition of child labor! Instead of wage cuts—shorter hours! Instead of many little unions—one giant union! Organization! Unity! And again unity! Unity and struggle! Only in this way can you save yourselves.

### Reaction in the Balkans

Stefan Raditch, the leader of the Croatian peasants' party, has been arrested and will be tried for treason, according to dispatches. This is another step in the drive against peasants and workers in the Balkans and is undoubtedly encouraged by the allies.

The Croatian peasants' party is not a revolution ary organization, but a reformist nationalist group that has not betrayed the agrarians and therefore has earned the enmity of the reactionaries. The Raditch party has been working in a united front with the Communists with the result that both church and peasant districts have been solidified against the white-guards government.

The arrest of Raditch spells trouble in the Balkans—trouble for the imperialists and their pup pet governments.

This week sees the opening of state legislatures over the country. That calls for a more intensive class struggle against the upholders of child labor who are seeking to defeat the child labor amendment to the constitution. Get busy!

Some of the opposition deputies in the Italian chamber want to impeach Mussolini. The Italian Communists will laugh at this proposal. They are out to rid the nation of capitalism in all its forms, including the timid bourgeois "opposition" and the democratic pacifists, parading as socialists.

We are all agreed on the policy to "insure the DAILY for 1925." But that isn't sufficient. Let us all get busy and work just a little harder for that policy.

### Capitalism's Mercy to the Houston "Rioters"

The "mercy" of capitalist "justice" is nearly as bad as its vengeance. The National Association for the Advancement of Colored People announces that getting a parole for 20 of the large group of so-called "Houston rioters" from Leavenworth prison is a victory of the organization during the past year.

The writer, who happens to have shared prison fare with these black soldiers, knows how many of them will receive this "mercy" with secret cynicism. They will, of course, be happy as any animal is happy to escape bondage in the narrow confines of a steel cage. But in the depths of their hearts they will not grovel at the feet of a capitalist government that extends them the "mercy" of bondage or wage slavery in the larger prison of the capitalist system. The writer knows them well enough to understand that they have learned a profound cynicism in the powers that be.

The "mercy" of parole, again, is an irony.

The writer, who keeps a watch at the mercy of his boss, the whims of police surveillance and treated always as a suspect to be arrested and questioned and possibly convicted any time a culprit is needed that cannot be caught. Always, the man's "record" is held against him as proof positive of present dereliction if he cannot prove an iron-bound case of innocence.

This goes back to the facts of the Houston case, too long to recite here, except to say that a regiment of Negro soldiers in their camp at night were attacked by an absolutely mob of lynch-minded Texans and police. They had arms and used them in defense and counter-attack. Naturally, somebody got killed.

The vengeance of capitalist government, which recruited these black workers to shoot down colonial subjects, oppressed races like themselves in the islands—east and west, Mexico, and to protect capitalist rule with bayonet and bullet from overthrow by the exploited workers of any and all colors—the vengeance of the courts martial was swift and terrible. A whole group was taken out, about twenty or thirty, as we recall, and hung—almost without pretense at trial. The others sentenced to a living death—to life at Leavenworth.

Now some of them are paroled from the prison of Leavenworth to the prison of the capitalist system, closely watched and required to account for their every hour. This is the "mercy" of capitalism for a worker who mutinies. And it is strange to see that the fact of the remainder of these victims being eligible to receive this "mercy" of parole in 1928—three years more in the prison hell—is hailed as a resort of glad tidings. As we said at the beginning, the mercy of capitalism is nearly as bad as its vengeance.

### Labor Is Aroused

The new attacks, thru the Michigan courts, against the Communists will stir the American working-class to militant protest. This can clearly be seen thru the reaction resulting from the brutal sentence imposed on C. E. Rutherford, national secretary of the Workers' Congress of Party, and the eagerness with which the capitalist bloodhounds have rushed him off to the state prison at Jackson.

When the attack was first launched against the Communists, there was the raid on the Bridgeport convention, the organized labor movement of the nation protested vehemently, recognizing this as an attack on the whole working class. The workers everywhere understood that this was not an attack against the Communists alone, but against all workers' organizations that dared fight the bosses. The thinking elements of organized labor, that were now under the complete domination of the bosses, will realize more than ever that this continual attack on the Communists, is also a fight against all labor.

The quick response from the organized workers, as seen for instance in the resolutions adopted by the Stone Cutters' Local, of Omaha, Neb., shows that the rank and file are jealous of its rights, and that it does not intend to quit in the fight against class enemy, even if the capitalists are reinforced by their "labor lieutenants."

The struggling Michigan is on again. Thinking workers will rally in mass in this struggle on the side of the Communists facing prison.

State legislatures are meeting quietly and contentedly over the country. They contain no Communist members ready to make a fight against capitalism. That explains it. Get into the Workers' (Communist) Party and help remedy this situation for the future.

They are going to broadcast the speeches made in the Norwegian parliament. The Communists will surely help warm up the radios of an evening, when the workers are at home ready to "listen in."

Our first birthday—Jan. 13. Help celebrate it! Distribute a bundle. Order blank on another page. Fill it out! Send it in!

Another "friendly conference" is being held. At last! It will be fruitless as all the rest. Not even "conferences" can keep capitalism alive.

More trouble for Mussolini. The United States will course the \$2,000,000,000 advanced to Italy during the war.

Don't forget to send in that order for the Special Anniversary Issue of the DAILY WORKER out next week. Celebrate this day!

### STUDENTS STUDY LABOR PROBLEM IN FACTORIES

#### Banker Denies Existence of U. S. Imperialism

NEW YORK, Jan. 7.—Five young college students are found out by their capitalist enemies who are a factor in the workers' life and are trying to find out what they, the college workers, are doing to help workers to improve their conditions and to fight for industrial democracy. The college group lives in a worker's house in a textile town near New Haven, Conn., and are employed in the mills and in odd jobs, as well as in a special phase of community life in reference to the dominant industry. One student, political science major, is a religious life, another socialist active, etc., as affected by industrial conditions. One of the group has run into the capitalist system. Miss Hagan is a closely and unusual manifestation watched for.

Treated Like Robots. Employers treat workers as part of the machine and do not even try to understand what the workers are doing. The rule is, Miss Hagan found, that the workers wait hours for their pay. She has learned from \$14 to \$17 per day at the mills, and has been paid as little as \$10. She suggested that going into industry is the best way for college students interested in the capitalist racial movement to be trained.

Otto Kahn, banker, denies the existence of imperialism at the League's annual meeting, and says that a myth of Standard Oil or any other capitalist interest controlled the U. S. state department. Scott Nease took the opposite view and said the Monroe doctrine was the work of the United States. Imperialism is spread by the United

States.
