

PHILA. BOSSSES IN DRIVE FOR CHILD SLAVERY

Call Serves "Advocates
of the Constitution"

By H. M. WICKS.

(Special to The Daily Worker)

PHILADELPHIA, Pa., Jan. 18.—In this city—"the cradle of liberty"—where the shack shop reigns supreme, where wages are lower and hours of labor longer than in any city of its class, the exploiters of labor have banded together into an association bearing the euphonious name of "Advocates of the Constitution" for the avowed purpose of defeating the ratification by the Pennsylvania legislature of the child labor amendment.

The purpose of the organization, according to its proclamations, is to "protect the health and welfare of the child laborer, to fight for the abolition of child labor, to demand that the state declare that short hours of labor would encourage crime and that all public spirited citizens should approve the capitalist virtues of industry and thrift."

A fake "Survey."

One David Lee McCue, of the leading lights of the "advocates of the constitution," published the results of a "true and complete" annual working class family in some of the poorest sections of the city. Housewives, small shopmen, boys under 18 and "many others" were interviewed, and they all declared that their families "would be deprived of needed funds for food and clothing should the amendment become a part of the constitution."

The "survey" also included employees of child labor. (Averian E. H. Siebert, principal director for the Kresge Drug Co., who styles himself as the "personnel and works director" declared he is convinced that the amendment if adopted will "develop the body and mind of a child to a greater degree than any other factor—a party capable of leading the masses and willing to fight to the end."

Capitalism at End of Road.

SCHOOLS GRIND OUT WORKERS FOR BREAD LINE

OMAHA, Neb., Jan. 18.—The unemployment situation here is the growing worse rather than showing any improvement.

Negro workers are particularly affected by this condition. The Colored Commercial Club, which has 150 members, is at the rock bottom for whom they have no jobs to furnish.

Recent business failures in the city have thrown hundreds of "white" colored workers into the ranks of the unemployed.

The Burgess-Nash department store bankruptcy above threw out of jobs.

Meanwhile, local high schools and colleges are turning out hundreds

more of trained office workers who bring the business houses and employment offices a plenty.

When the applicants happen to be open, these applicants are told that "only experienced men" are wanted, at large, ranging from six to eighteen dollars a week, the latter being about the highest figure for women workers.

Work For Girls

Restaurants and cafeterias are even getting by with extreme with no wages, whatever. High school and college students are being employed under the guise of "charity" to work for their meals.

Such advertisements as appear in the local capitalist newspapers invite the usual "fake" recruiting proposition, offering the "ambitious" an opportunity to work out their shoes for a chance to be an "executive" of the business.

The local chamber of commerce held out a hope to the unemployed in the shape of a Sears-Roebuck branch which would take in 1,000 employees, 2,000 workers. Immediately

(There are fully five times that number out of jobs) the branch went to Kans., however. The chamber of commerce will tell the jobless to hike down there, and join the mob which will undoubtedly seek to labor for Sears-Roebuck's famous wages scales.

Faker Urges Bread for Workers.

Meanwhile, local Communists have launched another fake "labor paper" to sandbag the local business men. This new "unemployed" was to be a "song and dance" for the unemployed and tries to "sell" the Communists who would demand minimum wages at about twice what is now offered to others.

The editor of this sheet, who fears to print his name on it, announces that this is his "song" and "script."

He claims that the capitalist charlatans gave the jobless one reasonably good feed on Christmas, it would seem that this amateur is not at all interested in anything other than "suspense." But such are the elements who now dominate the labor organizations, as the capitalist labor leaders. They, the untrained, will have to learn to choose between them, when they come to realize the need of lead ership.

Comrade Johnstone reported the El Paso convention of the American Federation of Labor at the next regular monthly meeting of the Chicago branch of the DAILY WORKER.

Johnstone has the unusual distinction of being the first Communist reporter in America to announce the passing of America's greatest labor faker.

Johnstone will be under the joint auspices of the Workers Party and the Young Workers League. Admission is 25 cents.

C. C. C. Meeting Monday Eve. Feb. 2.

DETROIT, Mich., Jan. 18.—At a general membership meeting held here last Monday night the Young Workers League voted unanimously for the statement of policy of the National Executive Committee of the Young Workers League and for the majority thesis of the Workers Party. Comrade Max Shachtman represented the N. E. C. of the Young Workers League.

The executive committee of the Workers Party, as well as the district executive committee, will attend.

The purpose of the meeting will be to outline the political and industrial work of the party for the young workers, will have a special election in April and the municipal election in November.

The regular monthly meeting of the local chamber of commerce will tell the jobless to hike down there, and join the mob which will undoubtedly seek to labor for Sears-Roebuck's famous wages scales.

Workers Cheer Lenin Pictures and Soviet Films Shown Here

An enthusiastic crowd filled the theater when the film "The Masses" was shown. The film, based on other movies, "Folkskanka" and "Soldiers' Miracles" were also applauded.

Local Communists, who organized the theater, advised the workers that there was never such a big crowd in the place.

The pictures had to be shown three times to accommodate the large number of spectators.

The pictures were as enthusiastic as the audience.

"This is the stuff for workers," he said. "We have a whole new picture of the world."

We haven't seen pictures like this in the United States. Why don't you get some more of them?" The janitor of the theater added at the end of the show.

The pictures had to be shown three times to accommodate the large number of spectators.

It wasn't only the workers that praised the pictures. An old physician said: "For the first time in my life I have seen a picture that I could better if you could give a little more consideration and place to the farm problem and the condition of working farmers, as well as the farm laborers ought to stand together."

As well as all former subscribers would also appreciate very much if it were possible to have the market price on farm products in your paper."

The pictures had to be shown three times to accommodate the large number of spectators.

It wasn't only the workers that praised the pictures. An old physician said: "For the first time in my life I have seen a picture that I could better if you could give a little more consideration and place to the farm problem and the condition of working farmers, as well as the farm laborers ought to stand together."

As well as all former subscribers would also appreciate very much if it were possible to have the market price on farm products in your paper."

C. C. C. Meeting Monday Eve. Feb. 2.

DETROIT, Mich., Jan. 18.—At a general membership meeting held here last Monday night the Young Workers League voted unanimously for the statement of policy of the National Executive Committee of the Young Workers League and for the majority thesis of the Workers Party. Comrade Max Shachtman represented the N. E. C. of the Young Workers League.

The executive committee of the Workers Party, as well as the district executive committee, will attend.

The purpose of the meeting will be to outline the political and industrial work of the party for the young workers, will have a special election in April and the municipal election in November.

The regular monthly meeting of the local chamber of commerce will tell the jobless to hike down there, and join the mob which will undoubtedly seek to labor for Sears-Roebuck's famous wages scales.

Faker Urges Bread for Workers.

Meanwhile, local Communists have

launched another fake "labor paper" to sandbag the local business men.

This new "unemployed" was to be a "song and dance" for the unem ployed and tries to "sell" the Communists who would demand minimum wages at about twice what is now offered to others.

The editor of this sheet, who fears to print his name on it, announces that this is his "song" and "script."

He claims that the capitalist charlatans gave the jobless one reasonably good feed on Christmas, it would seem that this amateur is not at all interested in anything other than "suspense."

But such are the elements who now dominate the labor organizations, as the capitalist labor leaders.

They, the untrained, will have to learn to choose between them, when they come to realize the need of leadership.

Workers Cheer Lenin Pictures and Soviet Films Shown Here

An enthusiastic crowd filled the theater when the film "The Masses" was shown.

Local Communists, who organized the theater, advised the workers that there was never such a big crowd in the place.

The pictures had to be shown three times to accommodate the large number of spectators.

The pictures were as enthusiastic as the audience.

"This is the stuff for workers," he said. "We have a whole new picture of the world."

We haven't seen pictures like this in the United States. Why don't you get some more of them?" The janitor of the theater added at the end of the show.

JAP INTERESTS IN DEADLOCK ON SOVIET STAND

Expect Recognition As Inevitable Result

(By Rosta News Agency)

MUKDEN, Dec. 16. (By Mail) — The Japanese government is in negotiations with Soviet Russia and the present deadlock in the struggle that is going on outside the scope of the conference.

The following details are available from a well-informed foreign source.

Navy Needs Oil Supplies

The ministry of navy, being interested in certain oil supplies for the Japanese fleet, is in a position to demand an agreement.

This department considers that the Soviet propositions are acceptable and, after a period of negotiations, as well as those of the U.S., when a truce will be in effect, the balance and depend upon whether or not it will be able to get oil from anywhere besides America and the Dutch Indies.

However, the naval ministry's insistence meets with opposition on the part of the foreign interests and interests of other financial groups, which are actually working in northern Sakhalin under the direction of Holman.

There have to their hearts not so much the national interests of Japan as those of their own pockets, and therefore, while they are in favor of the recognition of the Soviet Union, they bring pressure to bear on the government in order to obtain the most advantageous terms for their enterprises.

The second fighting line, so to say, runs between the present cabinet and the private council, which is largely a group of research and influence in questions of foreign policy, and, disregarding the former's feelings, is steadily bent upon pressing that the Japanese government, and the latter has already done the main part of the work.

Urge Transfer to Moscow.

Lastly, the third fighting line runs along the relations between Mr. Yotsukawa, Japanese minister of foreign affairs, and Mr. Kato, Japanese Foreign Affairs Minister. Serious divergence of views between them on the Russian question has led to a split, when a new cabinet, which would easily be settled under another department, is actually complicated by an element of personal irritation.

Humanitarians in Tokyo have it

RECOGNITION OF SOVIET RUSSIA WILL SOON BE AGREED TO BY JAPS

(Special to The Daily Worker)

NEW YORK CITY, Jan. 18.—The New York Times, in a copyrighted wireless from Tokyo, says that the various negotiations are still continuing and that the draft agreement between Soviet Russia and Japan has reached the negotiations in Peking between Toshihiko, the Japanese minister, and Leo Karakhan, the Soviet ambassador to China, which are said to be nearing a successful conclusion.

It was stated at the foreign office today that three points remain under discussion, further instructions from their respective governments being that it is believed, will clear away the last obstacles.

Russia demands immediate evacuation of northern Sakhalin by Japan, as far as possible, and Japan demands that the answer is that evacuation would be difficult while the island is being occupied.

The draft of the agreement, which was published today and which is confirmed in official circles as "correct," but not quite complete, accepts the demands of the Japanese, which is divided into two articles and two protocols, besides five annotations.

Terms of the Agreement.

The main features are as follows:

Article 1 provides for the immediate resumption of diplomatic and consular representations between the two countries.

Under Article 2 Russia undertakes to recognize the Portsmouth Treaty, and the continuation, or revision, of other treaties is deferred to a later conference.

Article 3 deals with fisheries and maintains the present system of leasing fishing rights, pending the conclusion of new conventions.

Article 4 calls for negotiating a treaty of commerce and navigation; each country being placed "as fast as possible" on the basis of the most favored nation.

Article 5 deals with propaganda. Russia, undertaking not to carry on propaganda in Japan "for purposes of corrupting political and social institutions."

In Article 6 the Japanese government is to grant the Japanese government or Japanese subjects concessions for exploiting the minerals, forests and other natural resources in Soviet territory.

Article 7 calls for negotiating a treaty of commerce and navigation; each country being placed "as fast as possible" on the basis of the most favored nation.

Article 8 provides for the payment for concessions Japan is to pay Russia a royalty of 10 or 10 per cent of the oil output, excepting fountain oil, and from 5 to 12 per cent of the oil output.

Japan states that she will not ratify the protocol on Tarashiba, signed in Tokyo in 1921 by the ambassadors of both powers.

At this point, either there does arise a question as to whether the Soviet government will agree to such a combination, which would be regarded in Moscow as a violation of the principles of international law, or to a definite issue further delay.

It was further learned from the most well-informed sources that there might be a decisive development in the Soviet Japanese negotiations with the Japanese government, which is to be held at Mr. Shibusawa's villa.

Expect Belgium to Follow France in Recognizing Russia

(By Rosta News Agency)

MOSCOW, (By Mail) — Jan. 18.—The Belgian government, in the person of its foreign minister, tells a correspondent of the Tass that in view of the restoration of normal relations between France and the Soviet Union, the Belgian government, which is likely to be followed by the recognition of diplomatic relations with Belgium, the Argentine may be asked to do the same.

Thus there are now three representatives of the French establishment coming to arrange a service between Marseilles and Harve and the Russian Black Sea and northern ports, respectively.

Especially the former, who is also expected to give tonnage for Russian export operations. Many other representatives of French and Belgian business interests are also expected to come soon.

Durand, who has been in Leningrad before, and who is now purchasing for the French military and commercial correspondents that to put Franco-Soviet business rapprochement on solid foundations.

GERMAN TRAITOR, SOCIALISTS LOSE EVEN THEIR JOBS

(By Rosta News Agency)

BERLIN, Jan. 18.—The more reactionary and even monarchial tendencies of the new cabinet of Dr. Luther provoked a protest of the Socialists on the question of debts and with the much debated problem of concessions in northern Sakhalin, which the communists have been interrupted.

Protocol A reserves the question of Russia's right to request a loan, but it is agreed that Japan shall not be placed in a position less favorable than any other government.

Both parties declare in this protocol that the Japanese government will not be compelled to accept the demands of the oil companies.
