

## CLEVELAND ARMY OF JOBLESS IS 30,000 IN MONTH

Community Spirit Can't Fill Stomachs, They Say

CLEVELAND, Ohio, Jan. 21.—At the same time that newspapers here are devoting many columns of space to advertisement of the "community chest," thousands of unemployed workers are sitting on the streets looking for work. A few days ago 2,000 unemployed workers stormed the city employment bureau in the city and demanded work.

The community chest advertisements say, "Financing in and out among the vast throng of humanity we seek a spirit of community fund. The spirit means a spirit of help, give until the chest is overflowing."

But the hungry workers declare that community spirit does not help them. The community chests are giving out for food and work and they are found. They demand the right to work or else full maintenance by the government and the industry employing them.

The jobless here point to the fact that 100,000 people did not apply for work in Cleveland in the month of November alone. Over 60,000 more are here. In Ohio alone, Indiana, and Illinois, 120,000 are out of work. New York and 2,500,000 the very least are out of work in the entire country.

### Big Business Controls Indiana State Legislature

INDIANAPOLIS, Ind., Jan. 21.—Steam and interurban railroad interests were locking the bus regulators held in Indianapolis into the Indiana state house by the power of the money of the community chest.

The bill provides for consideration of existence of other forms of transportation and grants licenses to those who are operated. The men are employing to pass a bill providing for consideration of automobile transportation separately.

The conservative transportation bill is expected to be passed as it is. It is so harmless the milling and bank ing interests are not opposing it. The bankers declared it will not detract from their business and will stabilize the supply of grain.

## LIGHT ON ELECTRIC TRUST SHOWS MORGAN BANKS REAP ENORMOUS PROFITS YEARLY

By LELAND OLDS  
(Federated Press Industrial)

The vast capital power of the country is now concentrated in one Morgan power trust that has been placed in the spotlight by the financial trick with which the General Electric Co. is trying to slide out from under Senator Norris' indictment.

Thus a false surrender of the ownership of the Electra Bond & Share Co. has been taken by Morgan interests in simply one. Morgan's interests have a sphere of influence over 3,000 communities with a population of more than 7,000,000.

General Power & Light Co. which controls the entire supply of electric light power, street railway and gas service in this city with a capital of \$25,000,000.

General Power & Light Co. which supplies light and power to more than a score of manufacturing and mill towns in the developing centers of industrial expansion in the south.

Louisville Power & Light Company controlling companies supplying electric power and light in the anthracite country of Pennsylvania and West Virginia.

General Power & Light Co. which has made profits from 203 communities with a population of over 500,000.

National Power & Light Co. which supplies light and power to 39 communities in Little Rock, Ark., in Houston, Tex. and in the entire steel district radiating from Birmingham, Ala.

Utah Securities Corp., a holding company which reaches 183 communities in Utah, Idaho and Colorado.

New Orleans Public Service monopolizing the public service of that city.

And Poway Corp., which holds

the power franchise of the city of Poway, Calif.

The major public utility combines known to be subject to this Morgan

American & Foreign Power Co. which controls companies providing electric, light, power, telephone and ice, etc. in 39 communities in California and 39 communities serving over 600,000 people.

American Gas & Electric which controls public service corporations in 6 states supplying electric light and power to 127 communities with a population of over 1,750,000.

The communities are Canton and Newark, N. J., Scranton and Pittston, Pa., and Rockford, Ill., and Atlanta, Ga.

American Power & Light Co. which includes Kansas Gas & Electric, Pacific Power & Light, Portland Gas & Electric, Pacific Power & Light, Southern Power & Light, and Western Power & Light companies.

It collects its profits from 236 communities with a population of over 2,000,000.

Dallas Power and Light Co. and

## PERHAPS THE "RED LIAR" IS A PRESS AGENT "Red Revel" Publicity Makes Its Debut

peculiar how typographical errors could have more truth than positive proof. What could be more "red star" red "lie" in an issue of the DAILY WORKER last week. It caused a good deal of comment and discussion. The "red star" and the "red lie" is coming.

When the Red Revel publicity begins to break in real earnest, some of our readers have never attended the DAILY WORKER, will begin to doubt the veracity of the Red Revel press agent. His stuff will sound good. Perhaps they will say "Aha! I see what you are up to." But

ER was up to be on the lookout for.

Now, sometimes a good action will be taken more easily than a saint. In fact, it is not doubtful if we asserted the presence of a small army of angels at the Red Revel the biggest and the best ever held in Chicago. Every language fed, every soul satisfied.

Brains Are Busy.

The brains of an arm committee that has as much experience holding up entertainments as a lawyer has in law, are at work. They are making plans to make the coming Red Revel the biggest and the best ever held in Chicago. Every language fed, every soul satisfied.

They will be on the lookout for the workers to carry on the banner. There will be friendly competition and rivalry.

Now, with the Red Revel hall, this promises a delightful series of events to the adventurous. You can never tell what kind of a face may be behind any innocent mask.

Red Revel will be held on February 24, at the West End Women's Club, 37 South Ashland Ave., corner of Monroe and Ashland. The committee will be devoting its energies to raising the necessary funds to enable it to carry on a vigorous organizing and educational campaign during the coming year.

## Japan Recognizes Soviet

One more world capitalist power has thrown in the sponge after refusing for seven years to recognize the Soviet government. The latest nation to sign a treaty of peace and friendship with the workers' state is the United States government of the war-mongering Roosevelt.

The American miners' unions report extremely bad conditions in some mining sections. Several mines have been shut down for over one year as the coal diggers are reduced to desperate straits, there being no other industry except coal mining in those parts of the state.

Last Sunday a conference of miners was held in Belleville to consider unemployment. There were delegates present from eighteen locals. Delegates from one local reported that their officers tried to enforce the clause in the district contract providing for the sharing of work between the miners unemployed and those working. The bosses attempted to take advantage of this situation to interpret to their advantage the clause and refused to sign a "yellow dog" contract submitted by the bosses and Farnsworth as usual took the side of the coal operators when the head appealed to him for aid.

The Belleville conference decided to organize the unemployed in the entire sub-district, and to link its efforts with those of other conference organized throughout the country. While the reactionary officials of District 12 of the U. M. W. of A. are casting in their lot with Small during the election, the rank and file are taking action to solve their problems in an organized manner. Besides their local conference, the miners are strongly advocating open discussions. And in the headquarters controversy on Oct. 11, two days before the sixth general convention met, he was

"The First to Demand Discussion." For the first time statement to the I. W. W. membership, the Red International, which strongly advocated open discussions, however, plumped for the amendment which led to the 1921 convention having controversies from the workers of general circulation. The press must remedy the disease. Every member needs and expects to find all news and discussions in the paper he can relate to with that understanding. The press must be open to the unorganized as children, unable to read and discuss every policy, principle and tactic. The press must be open to the general circulation, and the general circulation must be open.

Then, on Oct. 24, after the convention in session ten days, the I. W. W. came to a statement of principles, the resolution in which the following was set forth as point Number Six:

"That the I. W. W. press of general circulation shall be open to all members upon payment of dues."

That no person or officer shall have power to deny publication, and that a responsible committee, which

should be given the decision on all

polls. The governor of Kansas is charged with peddling narcotics. He was kicked out of office. He was also weak in the head. Finally, calling in thousands when others were getting away with millions. A. B. Fall of Mexico appears to be in good health. If he feels hungry he can take his knife and cut a steak off one of the fat cattle delivered to him by Harry Sinclair in return for the Teapot Dome.

Senator Edwards has no reason to worry unless he proves to be a piker. This is the era of big capitalism where things are done on a large scale.

## The Jobless Miners

Tales of prosperity sent out by the rotund Secretary of Commerce Herbert Hoover, make pleasant reading for the snug and comfortable elements who feel that they are living in the best of all possible worlds. But while the workers in some industries are busy creating surplus values for the master class, there are other industries shut down by the bosses because they cannot see their way clear to operate them when the prospects for profits are not sufficiently alluring.

The miners' unions' reports report extremely bad conditions in some mining sections. Several mines have been shut down for over one year as the coal diggers are reduced to desperate straits, there being no other industry except coal mining in those parts of the state.

Last Sunday a conference of miners was held in Belleville to consider unemployment. There were delegates present from eighteen locals. Delegates from one local reported that their officers tried to enforce the clause in the district contract providing for the sharing of work between the miners unemployed and those working. The bosses attempted to take advantage of this situation to interpret to their advantage the clause and refused to sign a "yellow dog" contract submitted by the bosses and Farnsworth as usual took the side of the coal operators when the head appealed to him for aid.

The Belleville conference decided to organize the unemployed in the entire sub-district, and to link its efforts with those of other conference organized throughout the country. While the reactionary officials of District 12 of the U. M. W. of A. are casting in their lot with Small during the election, the rank and file are taking action to solve their problems in an organized manner. Besides their local conference, the miners are strongly advocating open discussions. And in the headquarters controversy on Oct. 11, two days before the sixth general convention met, he was

"The First to Demand Discussion." For the first time statement to the I. W. W. membership, the Red International, which strongly advocated open discussions, however, plumped for the amendment which led to the 1921 convention having controversies from the workers of general circulation. The press must remedy the disease. Every member needs and expects to find all news and discussions in the paper he can relate to with that understanding. The press must be open to the unorganized as children, unable to read and discuss every policy, principle and tactic. The press must be open to the general circulation, and the general circulation must be open.
